

Drug-free relief is Here!

- **Relieve Stress...**
- **Ease Pain...**
- **Dissolve Anxiousness...**

and **Enjoy Restful Sleep – Every Night!**

Two Patented Ingredients Help:

- ✓ **Get rid of late night sleeplessness**
- ✓ **Soothe painful muscles and joints**
- ✓ **Elevate your mood and ease worry**
- ✓ **Boost mental and physical energy**
- ✓ **And so much more...**

Harvard Medical School graduate creates the first-ever, completely natural remedy for stress, sleep and pain!

SEE INSIDE FOR DETAILS.

This amazing breakthrough anxiousness and stress

Dear friend,

According to a study published in the *Alternative Medicine Review*, “75-90 percent of visits to primary care physicians are related to stress — or problems associated with stress.”

A study published in the *Journal of Pain* reports that almost one in three adults over 60 suffer from persistent pain.

That means pain and stress affect nearly every American adult. So, if *you* are one of them...

If pain is part of your everyday life... if stress is keeping you up at night... if you've had to give up activities you love—if feelings of dread or anxiousness keep you from social activities...

**This is the best news
you'll read all year!**

Because, Harvard Medical School graduate, Dr. Gregory Smith has combined the power of two of Nature's most potent nutrients in one TINY capsule, **Hemp Extract** and **Sensoril®** for a one-of-a-kind remedy that can...

- **Ease** feelings of stress, fear and unease
- **Keep** you calm and focused
- **Get rid of** late night sleeplessness
- **Soothe** painful muscles and joints
- **Elevate** your mood and ease worry

Until now, mainstream medicine's solutions have been expensive, only partially effective and potentially harmful... that ends today

We are an incredibly stressed out society. More than one in five Americans was on some kind of mainstream psychological or behavioral remedy in 2010... up 22% from 2001. And those numbers are only increasing.

The problem with these so-called solutions is that they can come with side-effects ranging from dizziness and nausea, to weight gain, sexual problems—even seizures.

Some of them are habit-forming... many lose their effectiveness over time... and they can take up to a month and a half to “kick in”.

Adding insult to injury, feeling stressed and anxious can lead to physical pain... and physical pain can lead to feeling stressed and anxious—research proves that the two can create a vicious cycle of increasing physical and emotional pain. **In other words, having one can make the other worse.**

Harvard research confirms, “*People suffering from poor mood, for example, tend to experience more severe and long-lasting pain than other people.*”

That's why the research on full-spectrum Hemp Extract is so exciting—it can help conquer stress, sleeplessness and pain FAST!

The studies are stacking up faster than I can write about them.

In a 2019 study, nearly 80% of patients in the **Hemp Extract** test group showed a marked decrease in anxiousness and 67% had improved sleep scores after just 30 days.

Another 30 day, double-blind, placebo-controlled study—the gold-standard in human clinical research—showed that anxiousness scores dropped an average of nearly 25% after

halts the vicious cycle of pain, ... *STUDIES SHOW IT!*

just 30 days... and by more than 31% at the end of three months.

And, in a small study, published in the *Journal of Alternative and Complementary Medicine*, after just eight weeks, 91% of adults suffering from stress associated with traumatic events saw huge improvements.

That's just the tip of the iceberg!

In a study published by the U.S. National Library of Medicine, **patients reported a 30% decrease in pain.**

I'm talking about everything from burning and tingling to numbness in the legs and feet—reduced by almost a third.

Best of all, the benefits of Hemp Extract with CBD...

- ✓ **Do not diminish over time**
- ✓ **It's completely natural**
- ✓ **And it's 100% legal across the United States**

Not only do you NOT need a prescription, much less a trip to the doctor's office, but the risk of side effects is almost zero!

“Relieves years of feeling anxious and having trouble sleeping!”

Why “plain old” CBD isn't enough

CBD is the most well-known medicinal compound in the hemp plant. But the hemp plant also offers us beneficial terpenes, flavonoids and other healthful compounds.

So, companies touting the merits of their “CBD isolate” are actually depriving you of so many other healthy nutrients!

That's why we use 100% organically grown **full-spectrum Hemp Extract** with CBD. Full-spectrum hemp is considered the “gold standard” because it has the full range of compounds that work together to achieve a **GREATER** degree of wellness and relief!

When it comes to your health, insist on the best!

In fact, full-spectrum **Hemp Extract** with CBD only comes with side *benefits*.

- Powerful antioxidant properties to protect your cellular DNA
- Slowing the negative effects of aging
- And supercharging your immune system

That's why full-spectrum **Hemp Extract** is one of the key ingredients in *CannaCalm!*

(please turn)

SENSORIL®: The Latest Break and Sleeplessness That Makes

CannaCalm is a powerful, doctor-formulated, breakthrough remedy to combat stress, dissolve anxiousness and ease pain—quickly, safely, and naturally.

Here's how it works...

It combines all of the incredible benefits of **Hemp Extract** with a potent, stress-relieving herb called **Sensoril®**—a patented, proprietary extract of the legendary adaptogen, **Ashwagandha** that's **EIGHT TIMES**

MORE POTENT than ordinary ashwagandha.

Adaptogens, like ashwagandha, are naturally occurring nutrients that help your body adapt to mental, physical, and emotional stressors—restoring balance, easing tension and protecting your body from the negative effects of stress.

Sensoril® is the perfect partner to Hemp Extract because...

In a double-blind, placebo-controlled study, the

folks taking just 125 mg of **Sensoril®** (the same dose you'll get in a single dose of **CannaCalm**) saw their...

- ▶ Ability to sleep soundly improve 71%...
- ▶ Energy and endurance shot up by 53%...
- ▶ Focus and concentration increased 50%...
- ▶ Feelings of irritability dropped 71%...

Here's the thing... in the same study, one group of patients took 125 mg of **Sensoril®** *twice a day*, and WOW!

Stress and anxiousness are significantly reduced by the end of the study

Not only that, but their...

- ▶ Energy and *endurance* shot up by 79%...
- ▶ Focus and concentration increased 76%...
- ▶ Feelings of irritability dropped 76%...

That means, whether you stick with a single dose, or **double up for extra support**, this

Is stress really "A KILLER"?

YES! In fact, stress is one of the leading causes of sudden death!

Everyone experiences stress. Whether it's pressures at work, financial worries, troubled relationships or worrying about your health.

Ongoing stress can really do a number on your heart, digestion, immunity, and your memory. Plus, it can trigger headaches, muscle aches, even sexual problems.

Stress Hormones are the Culprit

When you feel stressed, your body releases stress hormones

cortisol and adrenaline which increase your heart rate and cause your liver to release extra glucose.

Over time, this constant state of stress can cause you to overeat, keep you up at night, slow healing, and make dangerous inflammation levels skyrocket... making your aches and pains even worse.

CannaCalm Relieves Anxiousness, Panic, and Stress!

The ingredients in **CannaCalm** are shown to ease stress, relieve sleeplessness, reduce worry, even vanquish pain while boosting your outlook on life!

Don't take my word for it.

Call 1-800-574-1723

and learn how you can put **CannaCalm** to the test for a full 90 days without risking a penny.

through in Stress, Anxiousness, Everything Else Obsolete!

combination of full-spectrum **Hemp Extract** with CBD *and* **Sensoril®** can turn even the gloomiest day around **FAST**.

- **RELEASING** feelings of doom...
- **CALMING** stress...
- **DISSOLVING** feelings of anxiousness...
- **LIFTING** your mood...
- **RELIEVING** pains, strains, aches and tingles...
- Even **BOOSTING** your energy, focus and concentration!

Plus, you can count on getting a great night's sleep, all night every night—starting from the very first dose.

When it comes to sleep, **Sensoril®**, once *or* twice a day, was compared with placebo... and the results speak for themselves.

The Sensoril® groups saw their sleeplessness complaints drop to almost ZERO!

After 30 days there was a huge improvement. But after just 60 days, their sleep problems were reduced to almost nothing.

And here's the thing about adaptogens like ashwagandha—unlike a lot of those mainstream standbys, **adaptogens work even better the longer you take them.**

So the longer you let **Sensoril®** work its magic, the better you'll feel!

Imagine life without feeling stressed... without feeling anxious... and with virtually no physical pain

As feelings of dread and anxiousness lift, you'll be able to enjoy social functions, attend concerts, even speak in front of a crowd without feeling panicked to the bone, dripping in sweat...

(please turn)

Sensoril® Reduces Stress and Anxiousness **FAST!**

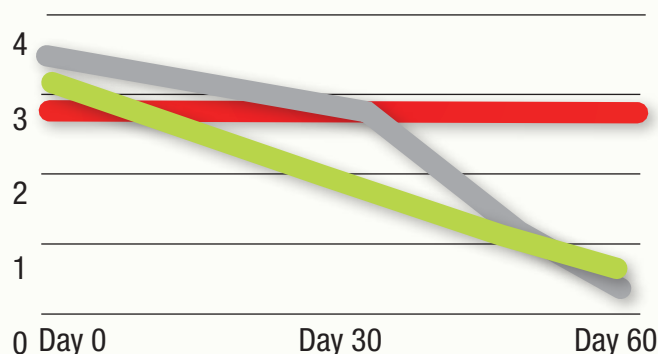

Baseline to
Day 30

Baseline to
Day 60

In no time at all, you can feel calm, cool and in control!

Sensoril® Effect on Sleeplessness

- Effect of Sensoril® 125 mg twice a day
- Effect of Sensoril® 125 mg once a day
- Placebo

Sleep complaints virtually GONE after just 60 days!

As you dissolve away those feelings of stress, traffic jams, business meetings, tight deadlines, and to-do lists begin to feel like a breeze...

As pain gives way to comfort, you can get back to enjoying your favorite activities—go for a walk or a bike ride...

... bound up the stairs without using the rail... chase after the grandkids... heck, even getting out of bed without feeling stiff and achy could be the life-changing benefit you've been looking for.

And you can have it all starting in just days!

Lactium and Lemon Balm for even more support!

In a recent study, folks taking 300 mg of a **Lemon Balm** extract reported a 72% drop in symptoms associated with stress, and a 39% reduction in sleep problems. So you can bet we've included exactly 300 mg of **Lemon Balm** in every daily dose of *CannaCalm*.

You'll also get a hearty dose of **Lactium**®, a proprietary milk peptide shown to improve sleep and melt away stress, without making you feel doopy or drowsy.

Combined with full-spectrum **Hemp Extract** and concentrated **Sensoril**®, *CannaCalm* is simply today's best natural remedy for easing tension and lifting away anxiousness FAST. But there's one small catch...

CannaCalm is NOT available in stores

In fact, you can only get *CannaCalm* right here, right now, through this very special offer.

You see, because I know you're someone who's interested in the natural benefits of full-spectrum **Hemp Extract** with CBD... and, since we already know that just about every adult in our country lives with *some* level of stress and pain...

I thought you'd want to get your hands on a risk-free bottle of *CannaCalm* as quickly as possible.

Better still, if you respond in the next 14 days, you can **claim your FREE gifts (see details on page 8) to start easing your pain, dissolving away stress and easing feelings of anxiousness.**

A natural answer for our troubled veterans

Estimates show that up to 31% of military veterans suffer from stress associated with traumatic experiences. It can effect their sleep, mood and can often lead to substance abuse disorders.

But recent research shows that individuals with this form of stress tend to have low levels of a natural endocannabinoid called anandamide — a chemical responsible for feelings of wellbeing, memory, motivation, and more.

Full-spectrum **Hemp Extract** with CBD has a powerful effect on anandamine levels, helping to correct this imbalance boosting mood, improving sleep and combating many of the negative side effects of stress.

Learn what *CannaCalm* can do for you — turn to page 8 and claim your free gifts when you order your risk-free supply.
