

75 years after the A-Bomb, the 2016 Manhattan Project is creating

Weapons of Mass Erection

Learn how a small consortium of today's most brilliant minds are creating powerful weapons to fuel and protect your "missile," boost your masculinity and super-charge your sex life

Dear friend,

Some 75 years ago, the Manhattan Project collected some of the world's most brilliant minds, in absolute secrecy, to create the most powerful weapons the world would ever know.

And, as you read this letter, a new Manhattan Project is underway. And yet another collection of brilliant minds are creating very powerful weapons.

Most folks will never know anything about these weapons, but as a man, YOU can't afford not to

The new Manhattan project is no secret... in fact, the more people who know, the more effective these weapons will be.

But not every man is ready to learn about them — what they are, what they do, and the potential power they hold.

Which is why I'm writing to YOU.

You're about to get a FREE peek at what's going on behind the doors of one particular Manhattan office.

This time, they're not creating missiles or weapons of mass destruction — they're creating weapons of MASS ERECTION.

In other words...

They're creating powerful weapons to protect YOUR "missile"

Your most important weapon — your manhood, your masculinity, and your sexual health.

I'm talking about weapons that can:

- Take on prostate cancer and win — without chemo, radiation, or surgery
- Prevent and reverse erectile dysfunction — without drugs or side effects
- Boost your testosterone levels — without dangerous, synthetic hormone replacements
- Ensure your masculinity, confidence and swagger — you'll be ready for "action" whenever the moment is right.

So, if you're a man over 50, you MUST read on.

Because with each passing day your sex drive takes a swift punch in the gut as your testosterone levels trickle away...

Your risk of prostate problems (swelling, infection, and cancer to name a few) grows... And your strength, confidence, and masculine energy take a nose-dive.

As a Manhattan Project insider, not only will you be armed with the tools and information you need to...

Have mind-blowing sex, a healthy prostate, and head-turning masculine swagger well into your 70s 80s 90s! But I'll show you how to arm yourself absolutely FREE!

As a fellow man, I know we don't like to talk about this stuff. It's personal, it's embarrassing — no one wants to talk about their waning sex drive or the fact that they're dribbling after they pee.

But here's the thing — these kinds of things don't fix themselves.

Now, unless you start paying attention to your prostate and your masculinity, RIGHT NOW, these things will only get worse.

And NO ONE wants to be couch-bound and sexless with a urine-dribbling penis and a set of man-boobs

Yes... man-boobs... it's one of the signs of low testosterone levels. Along with...

- A low sex drive
- Difficulty achieving (or maintaining) a strong erection
- Loss of body and facial hair
- Low energy and fatigue... even if you're getting good sleep
- Less muscle and more fat... especially around your gut
- Depression, irritability, and lack of focus... think PMS but for men... ALL the time

If ANY of this sounds like you, you'll want to keep reading.

And if none of it sounds like you, you'll STILL want to keep reading.

Because, if you're a man over 50, you HAVE a prostate... and if you have a prostate, there's a 50% chance you're already having problems (discomfort, dribbling, increasing late-night bathroom runs, to name a few)... and those chances hit about 80% once you hit 80 and above.

Plus, if you're over 50, your free testosterone levels have already dropped by roughly 20% from their peak... and that drop hits 50% or more by the time you're 75.

So, if you're a man... and you want to look like a man, feel like a man, enjoy wall-rattling sex like a man...

The information I'm about to share with you, absolutely FREE, couldn't be more important.

The *Manhood Manifesto* was created, over the course of the last decade, by understanding what makes men move... how to keep us in the game... looking and feeling our best.

In other words, NOT JUST SURVIVING, BUT THRIVING AT ANY AND EVERY AGE.

And I want to send you a book that explains how to do just that.

Aptly titled, *Thrive Don't Only Survive*, the information in this book is SO important that I'm going to send it to you for FREE.

But first, I'd like to introduce you to the brilliant mastermind behind this *Manhood Manifesto*

The man who's made it his life's work to ensure men have the tools and knowledge they need to live their best lives at any and every age.

He's turned couch potatoes into superheroes... without strict diets or hours in the gym... He's helped men take control of their prostate health — ending the embarrassing dribbles and wet spots, the late-night bathroom runs, the weak streams and trouble peeing... without drugs or surgery...

He's found a powerful natural formula for halting, reversing, and preventing prostate cancer — the second most common form of cancer (next to skin cancer) among men...

And he's an expert at helping men like you — reviving the robust and satisfying sex life you thought was long gone

He'll show you how to transform your weak, lackluster sex life back into the kind of stuff you read about in the pages of *Playboy*.

Regardless of your age... regardless of how long it's been... and without expensive drugs or dangerous side effects.

His name is Giovanni Espinosa N.D., L.Ac, C.N.S. Dr. Geo for short.

Dr. Geo is a renowned naturopathic doctor and authority in the integrative management of men's health and urological conditions.

So, when it comes to ensuring the power and potency of your secret weapon, Dr. Geo's your man

Dr. Geo is the founder and director of the Integrative Urology Center in New York City. A center of excellence in research and integrative treatments for urological conditions.

The birthplace of the *Manhood Manifesto*.

He brings a tireless devotion to finding real, permanent, nutrition-focused solutions to today's most challenging men's health concerns — always in search of the most powerful, natural solutions the world has to offer.

He is a master formulator of dietary supplements for prostate, bladder, and sexual health and has been published in numerous peer-reviewed scientific journals and textbooks related to prostate conditions and integrative urology.

He lectures internationally on the application of integrative medicine in clinical settings and has been recognized as one of the top 10 Health Makers for Men's Health by Dr. Mehmet Oz and WebMD.

Most importantly, the culmination of everything he's researched, discovered, and implemented over the last decade is yours FREE...

Everything you need to know about armoring your prostate and igniting your sex drive is in your FREE copy of *Thrive Don't Only Survive*

Your prostate is the beating heart of all things masculine — your sex drive and testosterone levels. And, in turn, your energy, confidence, muscle tone... and your masculine swagger.

Everything that makes you a man hinges on protecting and maintaining the health of one walnut-sized gland.

Thrive Don't Only Survive is devoted to halting, reversing and, most importantly, protecting against prostate cancer and other prostate diseases.

And you'll get a detailed, easy-to-follow roadmap to optimal masculine health

You know it and I know it. As men, we don't really take care of ourselves until we get hit in the head with some kind of earth-shattering diagnosis.

Followed by the "oh shoot!" mentality.

But you don't have to be that guy.

Dr. Geo will show you how easy it is to use everyday nutrition to create a body that prostate cancer — cancer of any kind — can't and won't live in.

You'll learn what prostate cancer means... and what it doesn't mean (as you know, the internet provides a lot of great information, but a lot of bad information too).

Discover when you need treatment and when you don't.

Believe it or not, 70% of men who are treated don't actually need it — we're talking about painful, expensive tests, surgeries, and radiation that leave some men incontinent and impotent.

Dr. Geo won't let this happen to you! His goal is to make sure you have what you need to "stay in the game"

You'll learn what the PSA can and can't tell you — it's no longer the industry standard it once was. Especially now that there are extremely accurate, non-invasive tests you can have done... LONG before subjecting yourself to a scalpel or a needle.

He doesn't believe in treating one symptom or one organ. "The lower portion of your body's attached to the top — you have to treat the whole person. Not just one part."

In other words, this book is NOT just for men with prostate cancer — it's for any man who wants to live his best life

Dr. Geo strips away the jargon and the "doctoresse" language. He presents his knowledge in a simple, straightforward, easy-to-follow way that makes sense.

You'll learn how the five pillars of his proprietary CaPLESS method has helped thousands of patients, including renowned prostate surgeon Dr. William Fair.

Dr. Fair once regarded complementary medicine as "touchy-feely West Coast nonsense." But when he was given a 1 in 10 chance of living, with an aggressive form of colon cancer, for another five years, he changed his approach.

"My choices were limited — another risky operation, extensive radiation, and experimental chemotherapy," Fair told *The New York Times*. "Knowing these treatments could be very toxic and debilitating, I set out on my own to investigate approaches outside conventional medicine that I felt would preserve my quality of life, and perhaps slow the progression of the disease."

And he succeeded.

By employing diet and lifestyle changes — the very ideals that Dr. Geo's CaPLESS method is built upon, not only did Dr. Fair live another five years, but he "stayed in the game," living an active lifestyle.

Fight cancer and win... protect your prostate for a lifetime... preserve your manhood and masculinity... and enjoy a brag-worthy sex life well into your 90s...

Everything you need to know is in the pages of *Thrive Don't Only Survive*.

Books like this are valued at \$39.95 or more, but I want to send you a copy, absolutely FREE!

And I'll tell you exactly how to claim your free copy in just a minute.

But the *Manhood Manifesto* also includes three FREE reports: The Weapons of Mass Erection Library that comes with *Thrive Don't Only Survive*...

This three-volume set will detail everything you need to know to take your sex drive, your energy, and your confidence to the next level.

Starting with...

Weapons of Mass Erection Volume 1: "The Testosterone Conspiracy"

You don't need a tin foil hat to see that the testosterone business is taking American men for a ride.

The number of men starting treatment for "low T" has more than quadrupled in the U.S. since 2000.

And to make matters worse, research shows that a lot of these guys started their doctors with normal testosterone levels — that is, if their doctors even tested their levels at all.

So, before you trade in that prescription for a bottle of chemicals, check out "**The Testosterone Conspiracy**."

This eye-opening report will help you send your testosterone levels soaring without becoming big pharma's latest dupe.

You learn things like...

- Why testosterone shots are no more effective than a shot of sesame oil...
- Why traditional testosterone treatments raise your risk of heart attack, stroke, and death by up to 30%...
- How eating this all too common American staple can slash your testosterone levels by as much as 25%... keep it to a minimum and your sex life will reward you handsomely...
- The completely free solution to boosting your testosterone levels by up to 46%...
- How the low-fat, low-cholesterol mindset is turning countless men into women...
- The testosterone-boosting magic of Buffalo wings... hint... it's not the chicken... and why a good night's sleep might be the best testosterone boost you've ever slept through...

And so much more!

A \$19.95 value, you'll get "**The Testosterone Conspiracy**" FREE when you claim your copy of *Thrive Don't Only Survive* today.

Then, once you've got your testosterone levels on the rise, you'll want to dive into...

Weapons of Mass Erection Volume 2: "Testosterone Robbers: 5 modern androgen assassins that will leave you limp"

You're starting to feel more manly... randy and energized. You're seeing those pounds start to melt away and your sex drive is beginning to surge...

Don't thwart your own efforts — steer clear of these five testosterone robbers!

When it comes to preserving peak testosterone, there's one thing that's more important than what you're feeding your body — and that's what you're not feeding it.

- Steer clear of these. You're probably using them almost daily and they've been linked to "low T," obesity, genital deformities, and sperm degeneration.
- We all love a stiff drink now and again, but this particular alcoholic beverage is the most testosterone-crushing of them all... stay away!
- Nature's most powerful estrogen is in SO many of the processed foods we eat... learn what it is and how to avoid it like the plague.
- Just one hour's exposure to one of your most beloved electronic toys could be compromising your family jewels... learn how to armor yourself and protect your testosterone.
- These prescription drugs are not only top sellers, but they're masculinity-mashers as well... learn how these minor lifestyle changes can help you toss out those pills for good.

This report retails for \$19.95, but you'll get it absolutely FREE when you claim your copy of *Thrive Don't Only Survive* today.

And the good news doesn't end here. Now that you've got the tools to ensure YOUR tool is armed and ready for action, you can move onto...

Weapons of Mass Erection Volume 3: "A Mind-Blowing Sex Life: 5 powerful natural tips to 'stay in the game' and win"

No matter how many candles were on your last birthday cake, Dr. Geo's insights and advice will:

- Help you reignite a rich, active, and fulfilling sex life
- Identify the prescription meds that could be stunting your performance... and why you probably don't need to be taking them in the first place
- Explain the shocking connection between low cholesterol and low testosterone... and how you can reverse it quickly, safely, and naturally
- Introduce you to five of the most potent libido-boosting, virility-enhancing, and erection-powering compounds that nature has to offer... where to find them, and how much to take

No one's sex life should have to be timed around a pill... and Dr. Geo has the solutions you need to take control in the bedroom with the romance and spontaneity you thought were long gone.

A \$19.95 retail value, "**A Mind-Blowing Sex Life: 5 powerful natural tips to 'stay in the game' and win**" won't cost you a thing when you send for your FREE copy of *Thrive Don't Only Survive* today.

Claim your copy of *Thrive Don't Only Survive* (a \$39.95 value) and the three-volume Weapons of Mass Erection Library (a \$59.85 value) ABSOLUTELY FREE!

Is there a catch?

Only a small one... but I think you're going to like it.

All I ask is that you cover the shipping cost of the book — a very modest \$4.95.

And in return, not only will you get \$99.80 worth of free gifts, but you'll also have the opportunity to explore Dr. Geo's monthly newsletter, *Atlas Health Report*, absolutely FREE for the next 30 days.

Fast response bonus #1 "The Heart Attack in Your Pants: Why your ED could be a sign of heart disease"

Dr. Wolfson is a board-certified cardiologist who believes bad nutrition and toxins are at the core of today's most challenging heart health problems.

He prevents and treats cardiovascular disease with good nutrition, not medicines, and, like Dr. Geo, he treats the whole person, not just the symptoms.

And that's why, as a man, "**The Heart Attack in Your Pants: Why your ED could be a sign of heart disease**" may be the most important report you've ever read.

According to the Massachusetts Male Aging Study, conducted in 1994, more than half of men over 50, and more than two-thirds of men over 70 have erectile dysfunction.

A more recent review article in the *European Heart Journal* showed that ED has a strong connection to heart disease.

How strong? Well, for patients with ED:

- Cardiovascular events were 44% more common
- Cardiovascular mortality rose by 19%
- Heart attack was 62% more likely
- Cerebrovascular events (such as stroke) were 39% more likely
- All-cause mortality (death, period) was 25% more likely

"**The Heart Attack in Your Pants: Why your ED could be a sign of heart disease**" will help you identify whether you're at risk.

And Dr. Wolfson will share his simple, natural, and effective steps you can follow to take control of your heart health.

Because let's be honest. All the sex and testosterone in the world aren't worth a damn if you don't...

Ensure that your heart is ready, willing, and able to withstand your powerful, re-invigorated sex life

This invaluable report usually sells for \$14.95. But it's yours absolutely FREE for responding to this incredible men's health opportunity within the next 24 hours.

It's yours to keep, with my compliments, even if you decide that *Atlas Health Report* isn't for you.

But, as you're about to learn, your sexual health and your cardiovascular health go hand-in-hand. So I think you'll find that Dr. Wolfson brings tremendous experience and insight to *Atlas Health Report*.

And if you're still not sure *Atlas Health Report* is right for you, allow me to offer you...

Fast response bonus #2 "26 Ways to Fight Cancer and Win"

Recent research has pinpointed countless foods and natural compounds that actively work against cancer.

Some counter the activity of free radicals while others can directly induce cell death in cancerous tumors.

"**26 Ways to Fight Cancer and Win**" will detail the fruits, vegetables, vitamins, minerals, and natural compounds that fight free radicals, destroy cancer cells, and detoxify your body — one cancer-fighting tool for each letter of the alphabet.

From anti-oxidants to vitamin Z (you'll have to read the report to learn about this one), this FREE report will help you fill your shopping cart and your dinner plate with the healthiest, most delicious cancer fighters nature has to offer.

A \$14.95 value, "**26 Ways to Fight Cancer and Win**" is yours FREE just for perusing *Atlas Health Report* for the next 30 days.

Don't wait! It's time to arm yourself with these weapons of mass erection

Time is your enemy and Nature is a cruel prankster.

With each passing day, your testosterone levels are dwindling... your muscles are shrinking... your energy and vitality evaporate... and your risk of prostate problems continues to rise.

At risk is your most important weapon — your manhood, your masculinity, and your sexual health.

But *Atlas Health Report* can arm you with the weapons you need to turn back time, fight Nature's cruel tricks... and ensure your weapon is fully charged and ready for action.

I'm talking about weapons that can:

- Take on prostate cancer and win — without chemo, radiation, or surgery
- Prevent and reverse erectile dysfunction — without drugs or side effects
- Boost your testosterone levels — without dangerous, synthetic hormone replacements
- Protect your heart, halt and reverse heart disease — without drugs that leave you weak or impotent

Ensure your masculinity, confidence, and swagger — you'll be ready for "action" whenever the moment is right.

You have to take the first step, but it couldn't be easier.
