

**Indoors, outdoors, pollen...grass...weeds...dander...dust mites...and more...**

Your allergy symptoms **GONE** starting in as little as **15 minutes**

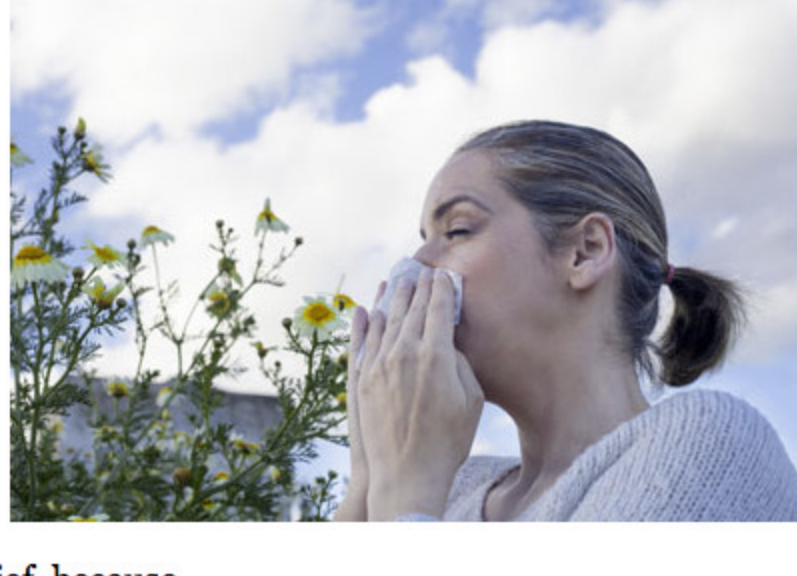

Dear Friend,

If you're among the 40% of the world's population who loves the spring weather...but can't tolerate the watery eyes, runny nose, and itchy throat...

If you love the fall, but the sneezing, sinus pressure, and headaches drive you crazy...

If you enjoy pets, but can't be around them without sneezing fits and goopy eyes...

Then I have exciting news of comfort, freedom, and relief, because...

This "accidental" discovery can halt your allergy symptoms starting in *as little as 15 minutes*...without swallowing a single pill

It's fast, effective, and completely natural.

And it's backed by five, double-blind, placebo-controlled, *human* clinical trials—the gold standard in medical research.

This isn't "preliminary research." And I'm not talking about animal or test tube studies.

Hundreds of people who were plagued with allergy symptoms, just like you, got to feel the difference this simple, "accidental" discovery can make starting in as little as 15 minutes.

And it can work for you too. Finally, you'll be able to:

- Spend a gorgeous spring day in your garden...without the sniffles and sneezes...
- Enjoy visiting friends and family...without worrying that their pets will turn you into an itchy, runny mess...
- Take a hike on a beautiful fall day...without coughing, sneezing, itchy throat...
- Kick on the heat in the winter...without the dust closing off your sinuses, making you miserable...

Because, indoors or outdoors...no matter what season...

What you're about to discover is a jaw-dropping miracle breakthrough for your most challenging allergy symptoms

Not since penicillin was accidentally discovered in 1928, has pure chance and astute observation had such an impact on modern natural medicine.

In 1967, Dr. Truffier, a French practitioner, had a similar accidental moment when he noted that local quail farmers had far fewer allergy symptoms than other folks living in the same general area.

Two different quail farmers had confirmed Dr. Truffier's observation—the farmer's had given quail eggs to their families and employees and in both cases saw a gradual reduction in their allergy symptoms.

Following up on his hunch, Dr. Truffier served quail eggs to his wife...and then his kids...and he was shocked to see their allergy symptoms vanish as well!

Almost 25 years later, this doctor's work caught the eye of the highly respected French allergist Dr. G. Bruttman...and that's when things got really exciting.

Five modern, human clinical trials have proven this 46-year-old "hunch" banishes your itches, sneezes, tickles, and coughs FAST!

Using a tablet made from a proprietary, standardized, quail egg powder, Dr. Bruttman conducted five double-blind, placebo-controlled studies to see just how accurate this hunch really was.

He worked with people battling indoor, outdoor, seasonal or allergy symptoms that lasted all year.

Study after study showed the same results. And they were nothing short of amazing.

- 18% improvement in breathing starting just 15 minutes after taking the tablet
- 25-44% improvement for stuffy, runny, itchy nose, watery eyes and itchy eyes in as little as 15 minutes...with continued improvement over the next two hours
- 70% of seasonal allergy sufferers no longer had complaints after 90 days...compared to 13 – 18% for placebo
- A similar study showed 80% improvement after 90 days, with significant improvements after just 45 days, for those who suffered all year

Studies have also noted improved lung function and clearer air passages for subjects taking the quail egg powder.

Perhaps best of all, you can do all of the things you want to do without getting knocked down by negative side-effects.

- You can take a breath of fresh, crisp spring air without feeling groggy or fuzzy-headed...
- Pet that shaggy dog or that long-haired cat without feeling dried out and dehydrated...
- Clean out your attic or dust off those shelves without feeling tired and "out of it"...

And, as I mentioned earlier, you don't have to choke down a pill!

But don't worry, you won't have to slurp down quail eggs either.

I'll tell you exactly what it is and how it works in just another moment, but first...

A little bit about myself. I am the founder and director of the Center for New Medicine in Irvine, California. I'm proud to say, it's one of the largest medical facilities in the country.

As a practicing physician, not only is it my duty to heal my patients, but I am constantly on the lookout for both leading-edge breakthroughs and long-forgotten remedies that work.

In this case, I've found a little of both—a decades-old discovery backed by anecdotal evidence that has since been verified, five times over, by double-blind, placebo-controlled, *human* clinical trials.

Having read through the remarkable findings in these studies, I couldn't wait to get this information both to my local patients and to loyal readers like you.
