

**WARNING: This 200-year old citrus “drug” may help promote healthy cholesterol levels and overall cardiovascular health****“Side effects” include:**

- ✓ **Healthy blood sugar levels**
- ✓ **Improved circulation**
- ✓ **Healthy, flexible arteries**

Dear Friend,

In 1837, Brocksop &amp; Company, a well-known English tea maker, was brought up on charges of fraud.

It seems they were “drugging” their cheap and inferior tea with the rind of an Italian fruit—using its citrus flavor and floral fragrance to pass their tea off as a superior product.

And at a much higher price.

In and of itself, this fairly common practice wasn't illegal. As long as you were up front about it.

In fact, according to a May, 1824 article in the *Lancaster Gazette*, teas typically sold at five shillings per pound could easily go for 12-18 shillings or more once they were doctored to mask the subpar flavor and quality.

At four to nearly five times the price, it's no wonder tea companies would risk lawsuits, tarnishing their good names, by lying about their tea.

But, what neither the tea makers, nor the barristers of the time realized, is that...

**This particular “fraudulent flavoring” may offer the most powerful natural solution for healthy cholesterol, triglycerides and blood sugar control the world has ever known**

Even today, this “nefarious flavoring agent” is used in a common variety of black tea.

It comes from the rind of the fragrant, green and yellow citrus fruits growing along the sunny, rolling slopes of the Calabria region of Southern Italy.

They're as bitter as they are beautiful... but the remarkable fact is that double-blind placebo controlled studies show that extracts of this fruit can help you:

- Maintain healthy total cholesterol levels
- Promote healthy LDL cholesterol levels
- Support healthy triglyceride levels
- Maintain balanced blood glucose levels
- Even promote optimal circulation for outstanding heart health

In as little as 30 days!

**And, combined with two other cardiovascular superstars, this amazing extract is the key ingredient in...****Newport Natural Health's newest supplement breakthrough, aptly named, Cholesterol Solution**That “fraudulent flavoring” is the tart and pungent extract of the citrus **bergamot**—and the teas it flavored are today known as Earl Grey.

Stories abound as to how the tea got its name. Most of them related to Earl Charles Grey, the English prime minister from 1830–1834.

But the Oxford English Dictionary debunked most of those stories in 2012 and the name's origin continues to be a mystery.

**What isn't a mystery, however, is bergamot's natural cholesterol conquering power**

In one 30-day, double-blind, placebo-controlled study—the gold standard in medical research—researchers looked at bergamot's effect on total cholesterol, individual HDL and LDL cholesterol, and triglyceride levels.

As I'm sure you know, when it comes to your heart health, those are the numbers that are highest on your doctor's watch list.

**And jaws dropped when those doctors and researchers saw tremendous improvements across the board!**

Study subjects taking 1,000 mg of bergamot saw their total cholesterol drop by 28%...LDLs drop by 33%...and triglycerides drop by 41%.

Impressive, right?

They also saw a boost in healthy HDL cholesterol—in some cases by as much as 64%!

But were there side effects? Yes!

And they're just as exciting as the cholesterol results.

Not only did bergamot have a profound effect on cholesterol and triglycerides, but it helped promote healthy blood glucose levels and circulation as well.

In fact...

**Study subjects taking just 500 mg of bergamot saw blood glucose improvements of almost 20%...in just 30 days**

That's exactly how much bergamot you'll get in each daily dose of Cholesterol Solution.

Not only that, but bergamot also helped arteries stay relaxed and flexible, helping to promote healthy circulation.

Another key element of optimal heart health.

If only the English knew this back in the 1800s...perhaps Brocksop &amp; Company would have been lauded instead of sued.

But regardless of the past, the future of your heart health is looking bright. Because citrus bergamot is combined with another powerful ingredient...

**This 5,000-year old, bright yellow, cholesterol-conquering wonder from the other side of the world**

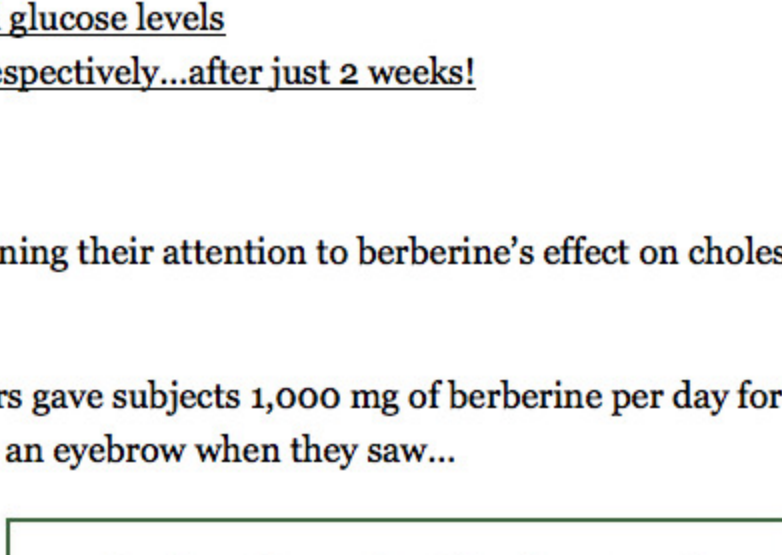

Still used as a bright yellow dye in northern India to this day, there are records in both Chinese and Ayurvedic medicine, extolling its powers, dating back to around 3,000 BC.

Perhaps you've heard of **berberine** before—it's been well-researched for promoting healthy blood sugar for years.In one double-blind, placebo-controlled study, subjects taking 1,500 milligrams of berberine saw fasting and post-meal blood glucose levels improve by 22% and 29% respectively...after just 2 weeks!

Which is truly exciting!

But now researchers are turning their attention to berberine's effect on cholesterol. And with very promising results.

In another study, researchers gave subjects 1,000 mg of berberine per day for 3 months...and you'd better believe they were all raising an eyebrow when they saw...

A second, similarly structured, study showed 29%, 25% and 35% reductions respectively.

**That's incredibly powerful, natural cholesterol support... and the only known “side effect” is healthy blood sugar levels**

In just a moment, I'll tell you how you can be one of the first to get your hands on this brand new, cutting-edge, natural breakthrough.

But first, allow me to tell you a little more about myself.

I am the Founder and Medical Director of the Center for New Medicine in Orange County, California. One of the largest integrative medical practices in the country.

During the earliest days of my medical practice, I realized that there were serious flaws with the mainstream approach to health care.

Time and time again, I watched patients get sicker and sicker at the hands of “standard” protocols and medications, while true healing was completely overlooked.

Finally, I decided to make a change—focusing on true health care solutions. I shifted gears and made it my mission to find better, smarter, more natural ways to work with my patients.

Today I focus on correcting the nutritional imbalances that are often at the root of many challenging health concerns.

**And that's why this powerful, natural cholesterol breakthrough is so exciting**

Because it harnesses the power of ancient nutritional wisdom, helping you achieve the results you're looking for, by quickly, safely, and naturally:

- Promoting healthy total, HDL and LDL cholesterol levels
- Supporting healthy triglyceride levels
- Maintaining healthy circulation
- Promoting healthy blood glucose levels

That means peace of mind that you're doing something good for your heart and your body...

It means walking into your next doctor's appointment with confidence—knowing you're not going to get a lecture.

It means knowing that your heart and cardiovascular system will be in tip-top shape and well-protected for years to come.

Especially since Cholesterol Solution has one more critical benefit...

**Help prevent age-related stiffening of your arterial walls**

If you want to keep your blood pressure in line and your circulation flowing freely, flexible artery walls couldn't be more important.

And the third and final ingredient in Cholesterol Solution can do just that!

Until fairly recently, vitamin K2 was a rarely studied and under-appreciated vitamin.

Then, a 10-year population study called the Rotterdam Study, published in 2004, found that, adults over 55 with the highest intake of vitamin K2 were 50% more likely to maintain overall cardiovascular health.

It turns out that vitamin K2 helps remove calcium from your blood and shuttles it into your bones where it does the most good.

In other words...

**Vitamin K2 helps keep your arteries flexible by preventing calcium from accumulating...while also helping to strengthen and fortify your bones**

Making vitamin K2 yet another powerful natural solution...with exciting “side effects”.

And because you expect only the best, highest quality nutrients from Newport Natural Health, we've chosen a form of vitamin K2 called MenaQ7.

**MenaQ7 is the ONLY clinically-tested vitamin K2 shown to promote healthy flexible arteries**

That means clinical proof that vitamin K2 can help...

- Stop calcium from sticking to your artery walls
- Support healthy, flexible arteries throughout your body
- Promote healthy circulation and blood pressure

And support strong, healthy bones by removing circulating calcium from your blood stream and redirecting it into each and every bone.

Making Cholesterol Solution a safe and effective, sure-fire way to help ensure optimal heart and cardiovascular function.

Without fear of negative side effects...without giving up your favorite foods or an active lifestyle...

**...And WITHOUT emptying your wallet!**

In fact, Cholesterol Solution costs just pennies a day.

A small price to pay for the clinically studied ingredients you'll get in each daily dose...

...the confidence that comes with healthy cholesterol and blood sugar levels...

...and the knowledge that you're doing something great for your mind, your body and overall wellness, using only natural extracts and vitamins.

And, just to make sure there's nothing else keeping you from getting Cholesterol Solution a try, I'd like to remind you that ALL Newport Natural Health products are backed by my...

**6-month, 100% Customer Satisfaction Guarantee— you'll get the results you're looking for, or we'll refund every penny**

All of the studies I've told you about in this letter lasted 3 months or less—some showed results in as little as 2 weeks.

But regardless of what any study shows, the most important thing to me is YOUR health and how YOU feel.

That's why I'm giving you an extra-long, full 6 months to decide if Cholesterol Solution is right for you.

If you don't feel that Cholesterol Solution can help offer optimal cholesterol, circulation and blood sugar support...

...if you don't walk into your next doctor's appointment with confidence...

...if you're not 100% satisfied at any time, for any reason, simply send back any unused portion within the next 6 months for a full refund (less shipping).

I know you have a lot of options when it comes to your heart health and the supplements you choose.

**And a guarantee this strong is my way of showing you that I take your trust very seriously.** So why wait?

Take on your cholesterol levels and win...help support free-flowing circulation and flexible blood vessels...help ensure balanced blood sugar levels...quickly, safely and naturally.

You only get one heart... and taking care of it couldn't be more important. [Put Cholesterol Solution to the test now, absolutely risk-free.](#)

Thrive in Health and Wellness,
