Shocking new research reveals, if you're an adult over 20

There's a 1 in 3 chance This secret source of nearly every health challenge is lurking inside you

The first sign is stiff, aching joints!

Find out if you're affected and how this ancient healing powder can halt its progression—FAST

SHOCKING RESE Inflammation isn't just

There's a silent inferno that's slowly wreaking havoc on every joint in your body.

t's smoldering away, just below your skin, in between the joint of every finger, your knees, your hips—between every bone in your spinal column.

It's called inflammation. And shocking new research shows that, even if you can't feel it—even if you're feeling limber as a teenaged gymnast—there's still a one in three chance that inflammation is silently eroding your joints.

And if you *can* feel it. Then you're already in danger. But

chances are your doctor

your doctor hasn't uttered a single word of warning.

He just scribbled out a prescription for painkillers or anti-inflammatories—a temporary cover-up for a *much* bigger problem. With *much* more at stake than "just" achy, cranky joints.

And the side-effects of those so-called solutions are awful—from an upset stomach to internal bleeding and liver

ARCH REVEALS: destroying your joints!

damage. No thanks!

The mainstream medical community wants you to think that your angry joints are just a sign of getting older. And it's true—our joints *do* take a beating over the years.

That stiff, dull ache when you get out of bed in the morning or walk down the stairs. That twinge as you reach for dishes in the kitchen cabinet. Your cranky back and hips bending down to pick up the morning paper.

But that's NOT old age. It's inflammation. And those drug-store pain relievers only hide its

symptoms temporarily.

Meanwhile, the silent inferno only grows stronger. And you wouldn't believe what it's doing, not just to your joints, but to your entire body (more on this in just a minute).

You need a solution that gets to the root of the problem—wiping out inflammation imbalances at their source. Quickly, safely, and *naturally*.

So, if stiffness and discomfort are keeping you from doing the things you love, just keep reading. Because...

(continued on next page...)

You may already be a victim of the silent inferno that's...

- Wreaking havoc on your heart and cardiovascular system
- Unbalancing your blood sugar and destroying your metabolism
- Eating away at your memory and overall cognitive function
- Accelerating the effects of aging

Turn to page 10 and learn how you can protect yourself starting today!

Cavamax[®] W8 is STRONGER than

I'm sure you've heard of curcumin.

ith more than 150 health benefits, and counting, its natural anti-inflammatory powers have been the subject of really exciting headlines recently.

Curcumin is a bright yellow powder, made from the ground roots of turmeric. It's one of nature's oldest medical miracles. But, modern clinical studies are *proving* what natural healers have known for centuries.

In a 2014 study, published in the *fournal of Orthopedic Science*, curcumin helped promote flexible, comfortable knees in just eight weeks.

Another 2014 study, published in *Phytotherapy Research*, showed equally impressive results. After just six weeks, people were showing... Enhanced mobility and flexibility in just a few weeks? With a completely natural solution? That's amazing!

That means, in no time at all, you'll be able to...

ln just 6 weeks

Enhanced mobility

up to 40 times ordinary curcumin!

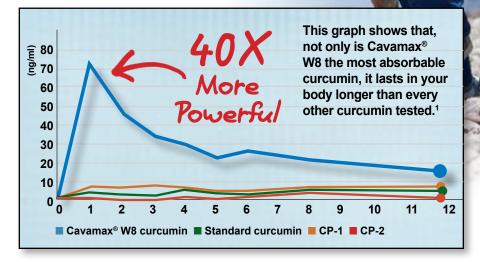

- Sit up and hop out of bed with ease
- Stroll through your sight-seeing vacation without resting your aching joints
- Sleep more soundly without waking up to aches and stiffness
- Enjoy dancing, biking, golfing chasing after the grandkids without even thinking about your joints

But, it gets better. Because, what I'm about to introduce you to, isn't some run-of-themill grocery store curcumin.

The curcumin *I'm* talking about is specially formulated for optimal absorption. In fact it's 40 times more absorbable than ordinary curcumin!

That means your body can absorb more of it...faster...and reap its benefits longer.

So, before you run out to your grocery store spice aisle, it's important to know that...

Not all forms of curc And you're about

S tudies prove Cavamax[®] W8 is 40 times more powerful than ordinary curcumin!

That's why it's the key ingredient in a joint-healing, inflammation-cooling supplement called Curcumin EX Plus.

Curcumin EX Plus doesn't *just* deliver the most powerful, fastest absorbing form of curcumin available today.

I've combined Cavamax[®] W8 with three of the best agedefying, antioxidant, antiinflammatory powerhouses Nature has to offer.

To help cool away inflammation, halt joint damage and help speed up the natural healing process.

Resveratrol is why red wine was dubbed a "health food" when its antioxidant, lifeextending powers first started

making headlines in 1997.

But resveratrol is also a topnotch inflammation-fighter.¹ That means, when combined with Cavamax[®] W8, you're getting even *more* support for flexibility, mobility, and joint comfort.

A perfect complement to Cavamax[®] W8 when it comes to staying active and enjoying life *without* being held back by your stiff, rusty joints.

But not just any old resveratrol will do. I chose Resvinol-25[™] because just one gram of this proprietary, standardized extract delivers the resveratrol equivalent of 350 glasses of wine in the most

umin are created equal to discover the BEST

biologically active form.² That means your body can absorb it and put it to work FAST. Resvinol-25[™] also delivers...

Powerhouse #2: RED WINE POLYPHENOLS

A full spectrum of red wine polyphenols. And, like our resveratrol, they're in a standardized, biologically active form your body knows how to use.

Antioxidant polyphenols are important because they can halt the free radical damage that can further erode your joints reducing swelling and improving your comfort and mobility.

So whether you're going out for a walk or getting back on the tennis court, you'll be able to move in complete comfort.

This one-two punch of natural, antioxidant and antiinflammatory power made Resvinol-25[™] a no-brainer addition to the Curcumin EX Plus formula. Curcumin EX Plus is SO much more than a joint supplement. Curcumin EX Plus is like having dozens of medical experts, right in the palm of your hand! See page 10.

Powerhouse #3: GRAPESEED EXTRACT

Grapeseed extract is another amazing antioxidant shown to halt the free radical damage that can age, decay and destroy your joints. It's actually 20 times more powerful than vitamin E and 50 times stronger than vitamin C.³

And, once again we went with a top-of-the line, standardized extract to ensure optimal potency and absorbability. And boy will you feel the difference when your joints start to limber up and you realize that nearly *everything* is a little easier once your joints stop hurting.

Better than exercise?!

Exercise is perhaps the single best thing you can do for your health. It strengthens your bones and joints, protects your heart, burns away fat and even helps improve your mood.

And in one clinical study, just 150mg of curcumin per day, for 8 weeks, offered the same cardiovascular benefits as 8 weeks of exercise!

Plus, curcumin's antioxidant properties help slow the effects of aging so you can look AND feel your absolute best.

That's not to give you permission to live as a couch potato, but once you add Curcumin EX Plus to your daily diet, you'll get *double* the dose of exercise's heart benefits!

New studies continue to emerge, singing the praises of

curcumin.

Researchers have known since 1972 that curcumin can help support healthy blood sugar. And those findings have been confirmed time and again.¹

We also know that its antioxidant power helps protect pancreatic beta cells—the cells responsible for producing insulin in the body.

Its antioxidant power makes it one of your best weapons against the negative effects of aging.

And with Curcumin EX Plus, you're getting today's most powerful, most effective, easiest to absorb form of curcumin.

Best of all...
