

**Your creaky, cranky, crying joints are about to feel like new**

Up to 40 times STRONGER than ordinary curcumin!

Restore your joint comfort and mobility thanks to one patented, natural compound that's far superior to any curcumin on the market today

Dear Health-Conscious Reader,

The science is clear, and it's riveting. Inflammation is at the root of every major joint complaint...and boy, can you feel it.

When you get out of bed in the morning or walk down the stairs. Reaching for your dishes in the kitchen cabinet. Bending down to pick up the morning paper. Even buttoning your shirt can be a trial.

But don't let the mainstream fool you. Your angry joints have very little to do with getting older.

Sure, our joints take a beating over the years—some wear and tear is unavoidable. But the truth is, it's inflammation.

A side-effect of our modern lifestyles and eating habits, research has confirmed that unchecked inflammation is the real culprit behind those stiff knees, those cranky hips, and those stubborn wrists and fingers.

So, if stiffness and discomfort are keeping you from doing the things you love, just keep reading. Because...

The world's most powerful curcumin is about to breathe new life into those rusty, achy joints

I'm sure you've heard of curcumin by now. Its natural, inflammatory-balancing powers have been making headlines for some time.

Curcumin is a bright yellow powder, made from the ground roots of one of nature's oldest medical miracles.

A 4,000-year-old solution, backed by hundreds of modern, double-blind, placebo-controlled, human clinical studies—the gold standard in medical research.

Not since Alexander Flemming discovered penicillin, has one powerful substance contributed so much to mankind's overall health and longevity

In fact, what you're about to discover just might be the biggest natural health breakthrough in decades.

It's a unique, patented form of curcumin that's up to 40 times more powerful than ordinary curcumin.

So powerful that, in no time at all, it can transform a life of aches and pains into a healthy, active, vibrant lifestyle!

With each passing day you can...

- **Sit up and hop out of bed with ease**
- **Stroll through sight-seeing vacations without needing to rest your aching joints**
- **Sleep more soundly through the night without waking up to aches or strains**
- **Enjoy dancing, biking, golfing—chasing after the grandkids—without even thinking about your joints**

I'm not talking about a temporary thing either.

I'm talking about easing pain, soothing stiff, aching joints and promoting comfort, mobility and easy movement, all day, every day.

So you can live life on your terms. Enjoy dinners, vacations, weekend activities and more.

How's that for some well-deserved relief?

But it gets even better.

Research shows that inflammation is at the root of nearly every one of today's most challenging health concerns.

And, as scientists continue investigating curcumin's powerful inflammation-balancing secrets, each groundbreaking study reveals yet another natural restorative power.

So far, they've uncovered more than 150 beneficial powers. Things like:

- **Slowing the onset of memory and cognitive issues**, and other neurodegenerative concerns
- **Sharpening your memory, focus, and concentration** by protecting and supporting healthy brain cells
- **Helping protect you against cardiovascular issues** by supporting healthy cholesterol and blood pressure levels while controlling the inflammation that can lead to these dangerous conditions
- **Revitalizing cells and slowing the effects of aging**, destroying free-radicals that make you look and feel old

This super-charged, patented form of curcumin goes right to the source of your inflammation—anywhere in the body—repairing joint and heart concerns.

And, in hundreds of studies, not a single negative side effect!

So please keep reading because I'm about to show you how YOU can try this 40-times-more-powerful curcumin for yourself without risking a penny!

But first, I'd like to introduce myself...

My name is Dr. Leigh Erin Connealy. I am the founder and medical director of the Center for New Medicine in Irvine, California. And over the past 20 years I have built my practice into one of the largest medical centers in America.

During the earliest days of my medical practice, I realized that there were flaws with the mainstream approach to health care.

So I began focusing on true health care. I shifted gears and made it my mission to find better, smarter, more natural ways to heal the body—inside and out.

Today I use the many merits of Western medicine in combination with the power of natural nutritional solutions—I aim to get to the source of your problems and fix them.

And one of the most important natural cures that I use in my practice every day is this patented, fast-absorbing form of curcumin.

It's up to 40 times more powerful than standard, grocery store curcumin supplements and...

Its safe, natural, inflammation-balancing powers beat the pants off of nearly every mainstream solution...**Faster, cheaper and without a single negative side effect**

Soothing tired, creaky joints...protecting memory and cognitive function...and supporting heart health.

This unique form of curcumin is an absolute superhero when it comes to snuffing out the root cause of nearly ALL of today's major health challenges.

It's like having a medical specialist, in every field, waiting to offer you peace of mind while healing anything that ails you.

It's a form of curcumin called Cavamax® and it's up to 40 times more powerful than the cheap, ineffective, curcumin supplements out there.

And study after study reveal its amazing healing powers.

Curcumin is the most active compound in a yellow spice called turmeric.

But before you run to the vitamin aisle or dive into curry, it's important to know that not all forms of curcumin are created equal.

Ordinary curcumin doesn't mix easily with water, making it very difficult for your body to absorb it and put it to good use.

But Cavamax® curcumin is up to 40 times easier for your body to absorb than the stuff you'll find in those supplement catalogs or in the vitamin aisle at your grocery store...

You'll get a GIANT dose of powerful, natural inflammation-balancing power...

Cavamax® curcumin is the real deal—it's absorbed faster and more efficiently than any other curcumin.

So it can go to work faster than any other curcumin...

- **Relieving the pain in your joints**, so you can hit golf balls...ride a bike...plant your garden with ease
- **Reducing your risk of cardiovascular issues**, so you can live an active, confident lifestyle without worrying about what's building up in your blood vessels
- **Slowing the onset and progression of memory and cognitive decline** so you're always on top of your game, sure of your choices and ready for all of life's "curve balls"

Plus, curcumin is a powerful antioxidant shown to help slow the effects of aging so you can look AND feel your absolute best.

In no time at all, your joints, your brain and focus, your heart health, and more, will thank you for adding Cavamax® curcumin to your daily routine.

That's because Cavamax® curcumin is one of the most powerful inflammation-balancing antioxidants Nature has to offer...in fact, I think it's the most important natural health compound available today.

That's why it's the key ingredient in a new supplement called Curcumin EX Plus

It's far and away the most powerful curcumin product, with the highest levels of absorbability I've ever seen.

That means more curcumin goes to work in your body, faster than ever before...

- **Promoting healthy, comfortable, flexible joints**
- **Balancing cholesterol and blood pressure levels**
- **Protecting your heart and circulatory system from inflammation**
- **Boosting your brain power and supporting overall cognitive function**

But when it comes to the power of Curcumin EX Plus, I'm just getting started.

I've teamed up Cavamax® with the best energizing, age-defying nutrients to restore your vigor and zest for life

That means:

- ✓ **Even more antioxidant protection**
- ✓ **Even more anti-aging protection**
- ✓ **And even more protection against dangerous inflammation**

Chances are you've heard of resveratrol.

It started making headlines back in 1997, when researchers first uncovered its ground-breaking anti-aging power.

Since then, resveratrol has been the subject of more than 3,700 studies showing its unique ability to...

- **Extend your lifespan**, mimicking the life-extending effects of a calorie restriction diet... without restricting anything!
- **Fight inflammation** for better flexibility, mobility, and joint comfort
- **Help prevent cognitive decline**, sharpening your overall brain function for keen focus, superior memory and concentration
- **Reduce your risk of cardiovascular issues** by balancing blood pressure and cholesterol—protecting the delicate inner lining of your blood vessels

So naturally, resveratrol was a perfect inflammation-balancing, anti-aging partner to Cavamax® curcumin.

But then I found a way to make resveratrol even stronger

Studies show that when resveratrol is combined with antioxidant grape seed extract, it boosts the power of both!

- **For even more targeted joint-comforting power...**
- **Even more cardiovascular protection...**
- **Even more support for memory and cognitive function...**

So adding a powerful grape seed extract was a no-brainer.

Then I took things up just another notch with the addition of red wine polyphenols. And not some standard off-the-shelf material—but another patented form that really does the job.

Large population studies show that people who regularly consume moderate amounts of red wine enjoy the best track records for heart health.

That's because these remarkable antioxidant compounds have been shown to help...

- **Support healthy circulation** by ensuring healthy clotting activity in the blood stream
- **Support healthy blood pressure** by boosting nitric oxide production, your body's own blood vessel relaxing chemical
- **Protect blood vessels**

So, you see...when you combine all four nutrients and add them to your daily regimen, it can only mean one thing:

Curcumin EX Plus is about to bring the FUN back into your active lifestyle!

Whether you're walking or running...biking or dancing...hopping up the stairs or bounding down them, your joints have never experienced anything like Curcumin EX Plus.

Because when it comes to a safe, natural, and effective inflammation-balancing solutions, nothing on the planet can boast the same healing power as curcumin.

And Curcumin EX Plus delivers one of the most easily absorbed forms of curcumin ever discovered.

Plus, you'll be getting the added power of resveratrol, grape seed extract and red wine polyphenols.

That means joint-soothing, flexibility-promoting, mobility-enhancing benefits...with less waiting for relief

In one recent study, people taking 500 mg of curcumin per day (the same amount of curcumin you'll get in each daily dose of Curcumin EX Plus) reported a 44.5% improvement overall. And 60% less pain. And...

More than a third of patients reported a 70% boost in flexibility

Proof positive that curcumin goes to the root of the problem...it doesn't just cover it up temporarily.

- ✓ That means, standing up or sitting down
- ✓ Going for a stroll or a bike ride
- ✓ Rolling a bowling ball, buttoning a shirt or opening a jar
- ✓ Simply enjoying a vacation, from start to finish

The amazing benefits of Curcumin EX Plus keep going and going.

And, unlike the typical solutions that come with digestive and cardiovascular side-effects that can range from painful to downright deadly...

Curcumin has been used for over 4,000 years without a single negative side-effect

As you read this, new studies continue to emerge, singing the praises of curcumin.

And its antioxidant power makes it one of your best weapons against the negative effects of aging.

Of course, teaming the patented, highly absorbable Cavamax® curcumin with resveratrol, grape seed extract and red wine polyphenols only boosts your super-protective inflammation-balancing arsenal.

And you can be among the first to try it for yourself... absolutely RISK-FREE

You can be one of the first to feel, first hand, how Curcumin EX Plus goes to work FAST:

- **Soothing away aches and pains**, so you can walk, dance, bike and go about your day without worrying about your joints
- **Protecting against memory issues and cognitive decline**, sharpening your memory, focus, concentration and protecting your overall brain health
- **Reducing your risk of heart concerns with balanced blood pressure levels**, healthy cholesterol levels, and a strong circulatory system
- **Slowing the effects of aging**, protecting every cell in your body from the damaging effects of free radicals

But you don't have to take my word for it. [You can order Curcumin EX Plus today and try it for yourself, absolutely RISK-FREE.](#)
