

Shocking research from top institutions shows:

Unique compound in blueberry skin could activate your “longevity gene”

“Because it gets into the cell, it will actually work on the genetic makeup of that cell so you can live longer...” - Dr. Eva Shelhub

Whether you’re 38 or 88, you could live longer AND stronger—enjoy sharp memory, clear vision, a youthful glow and more!

Dear Reader,

Scientists have uncovered a unique natural compound that can “switch on” the genes in charge of your lifespan—not only increasing how long you could live, but how *well* you’ll live.

This breakthrough makes it possible for you to start LIVING BETTER, right now, and enjoying:

- Real, lasting, natural energy—without caffeine jitters or sugar crashes.
- True independence—thanks to strong, comfortable, flexible joints.
- Mental clarity—with a positive, focused, and confident outlook.
- That sense of assurance when your blood tests come back all aces.
- The glow that comes with healthy, supple, youthful looking skin.

Just imagine a nutrient so powerful, you can look forward to dancing at your kids’ wedding, your grandkids’ wedding...even your great-grandkids’ wedding!

Not to mention the looks of surprise when you tell people your *true* age!

This compound goes to work in no time at all “switching on” the surging vitality you haven’t felt for years

The research on this compound comes from prestigious institutions across the country and around the world.

And it has experts throughout the medical community excited:

“[This compound can offer] enhanced insulin sensitivity, and increased lifespan.”
– Dr. Agnes M. Rimando

“[It can] ‘mimic’ caloric restriction’s favorable impact on genes that influence the aging process. – Julius Goepp, MD

“This natural compound favorably regulates genes involved in...a variety of age-related [conditions].” – Tiesha D. Johnson, RN, BSN

But the merits of this compound don’t stop at anti-aging, not by a long shot.

Combined with a hand-picked, targeted array of vitamins, minerals, nutrients, and extracts (more on these in just a moment), it goes to work—from day one—helping to deliver:

- Youthful, all-day gusto
- Unmatched heart health and cholesterol support
- Balanced blood sugar support and a healthy metabolism
- Healthy bones and flexible joints
- Sharp memory, focus, and concentration

As soon as I read the research, I put this presentation together—I wanted to get the message out to you as quickly as possible.

Because this could be the anti-aging breakthrough that people have been searching for since the beginning of time.

Once this information gets out to the masses, demand will be off the charts—supplies could disappear virtually overnight.

But in just a minute I’ll show you how to ensure you *always* have access to this breakthrough compound...

But first allow me to introduce myself.

My name is Angela Salerno, I’m the president of New Summit Nutritionals. Our mission is to help you reach new heights in health and wellness.

Every one of our natural supplements is formulated to be a complete solution for your most pressing health concerns. To accomplish that, we scour the planet in search of real natural health breakthroughs that work.

We spend months—sometimes *years*—researching what goes into every one of our formulas. For an ingredient to make the cut, it has to be backed by scientific studies that show real results.

Our research brings us stories of local medicine men in some of the most remote villages on the planet...and research from some of the most pristine, state-of-the-science laboratories technology has to offer.

And this powerful anti-aging solution just might be the most important discovery we've ever offered.

This breakthrough compound—the reason for all the excitement—is called *pterostilbene*. It's a mouthful, I know. So I'll call it PT for short.

This cousin to resveratrol is found in the skins of blueberries and a few other dark-skinned fruits.

It hasn't made mainstream headlines...*yet*.

But it won't stay a secret for much longer.

Because, not only is it a powerful antioxidant—protecting your body from the damaging effects of free radicals...

And not only does it help promote a healthy inflammatory response—protecting your heart and your joints...

But, PT is one of the ONLY natural substances shown to mimic the age-slowng effects of calorie restriction...but you don't have to make *any* changes to your diet.

It's *that* powerful.

So how does PT help reverse aging? Basically, it “switches on” the gene responsible for longevity.

Helping you not only live longer, but LIVE BETTER

Your eyes, your joints, your heart, your skin—even your mind and outlook—could appear to grow younger.

You could begin to move with ease—free of creaks and stiffness...

Go for a long drive, even at night, with the confidence of crystal clear vision...

Enjoy a renewed sense of confidence and independence...

PT could help add years, possibly even decades, to your life. PLUS, it may help:

- Support healthy blood sugar—a key to lasting, balanced energy levels that never leaves you crashing.
- Promote healthy cholesterol levels—for a healthy heart, clear arteries, and great circulation.
- Inhibit two powerful enzymes at the root of inflammation—delivering comfort, mobility, and a life full of fun and independence.
- Protect the delicate inner lining of blood vessels—for strong cardiovascular health and balanced blood pressure.
- Support a healthy colon for comfortable digestion, and regular bowel movements.
- Even support memory and mood—for renewed wit, strength of mind, and positive outlook.

And its antioxidant power can even help you look a little younger—supporting firm, supple, youthful-looking skin—smoothing away fine lines, dark spots, and other signs of aging.

Yes, I'm talking about hitting the rewind button on aging both inside and out.

Your *real* age is your secret to keep!

I'm talking about: extra support for healthy cholesterol, blood pressure and blood sugar levels, comfortable digestion, and the list goes on.

But, what's even more exciting are the powerful nutrients, working alongside PT, to create **the most powerful anti-aging and whole-body wellness solution you've ever tried.**

For example, I'm sure you've heard of resveratrol.

Perhaps you heard that resveratrol may also extend your lifespan

But let's be honest...who wants to be 100 years old if it means you can't continue enjoying all that life has to offer?

What's the point of living longer if you can't swing a golf club...enjoy a dip in a pool or the ocean...go for a stroll on a glittering Autumn morning?

Well, that's where PT has you covered.

"It's part of my morning ritual—it really gets me going in the morning. I can even go out without tea. It works pretty fast. I even stopped taking my other vitamins."

– Marni Sawyer, Kansas City, MO*

Because, when combined with a hand-selected array of nutrients and extracts, not only could you live longer, but you'll feel incredible.

Plus, it's **FOUR TIMES** easier to absorb than resveratrol. So some folks are saying it makes resveratrol obsolete...but not me. Because in vitro research suggests...

PT and resveratrol work together to AMPLIFY their power to support healthy circulation, cholesterol levels, balanced blood pressure, and more...

That's why my research team selected these two youth-preserving superstars as the cornerstone of our total anti-aging solution—Bio PT Elixir.

It was formulated as one comprehensive solution to help you achieve *all* of your health and wellness goals.

So, in addition to PT and resveratrol, each daily serving delivers the power of raspberries and blackberries...concentrated extracts from bilberry and green tea...the exotic, health-fortifying secrets of goji and acai.

In fact, this hand-picked combination of 18 powerful minerals, nutrients, and extracts covers nearly every health concern under the sun.

Each chosen for their targeted health benefits—infusing your heart, eyes, brain, immune system and more, with the antioxidant power they need to quite possibly...

Replace every bottle in your medicine cabinet

From day one, Bio PT Elixir goes to work:

- Halting aging in its tracks and delivering a burst of lasting, youthful vigor—so you can power through even the fullest days. Yet still sleep well at night.
- Protecting your heart and ensuring a strong cardiovascular system for enhanced vitality and lasting endurance—whether you're on a leisurely stroll or an all-day hike.
- Supporting healthy, flexible joints—so you can take on every task with ease and comfort.
- Maintaining healthy blood sugar levels—ensuring naturally balanced energy levels, without caffeine and without “crashes.”
- Securing a sharp mind, keen memory, focus, and concentration—so whether you're charming everyone at the pool party, or flying through the Sunday crossword—you'll be at the top of your game.

And, Brian Yacks from Dundalk, MD said...

“I don't feel tired in the mornings anymore, my mind is sharp, and my manhood has kicked back into gear!!!”*

Best of all... IT'S NOT A PILL!

Bio PT Elixir is a delicious berry-flavored drink.

Just one scoop of this nutrient-rich powder, mixed into a glass of water (or your favorite juice or yogurt), and you'll be ready to dig into your garden...fix up that car...head out for a hike...enjoy all of life's best moments with the spirit of a 30-something.

**It's so fast, so easy, and so delicious, you'll
look forward to it every morning**

In no time at all you could be looking younger, feeling younger, and "wowing" your doctor with fantastic cholesterol, blood pressure, and blood sugar levels.

Not to mention the renewed spring in your step and zest for life.

You'll look forward to taking on your day—whether you're tackling chores, out for a stroll, exploring your next vacation destination—no matter what's on your agenda.

But you don't have to take my word for it. Just listen to what a few of the pleased men and women, who've had a chance to try Bio PT Elixir, are saying:

"I use it every day in my breakfast smoothie. It keeps me energetic and satisfied most of the day. I am a 62 year old grandmother and feel great. I never want to be without Bio PT Elixir." – Susan Womack, Huntington, NY

"Bio PT Elixir helps with energy. I used it for a month then went back to my regular vitamin. I did see a difference, so now I'm replacing my regular multi-vitamin with Bio PT Elixir." – Jenny Grant, Levittown, FL

In no time at all, you could begin to notice how much better you look and feel with Bio PT Elixir.

- When you *leap* out of bed with the "zip" you need to hit the links...
- When your doctor's jaw hits the floor seeing how well you're doing...
- When you bound down the stairs...button your shirt in a flash...even tie your shoes...without even *once* thinking about joint aches and pains...
- When your friends, your family, even passing strangers remark about your youthful glow and your positive attitude...

Because you're getting a tremendous dose of nature's most effective antioxidants. The daily dose of goji berry extract is a natural source of vitamin C.

And, when combined with goji's vitamin E...

You'll have the building blocks for softer, suppler, more youthful-looking skin

And the sooner you get started, the sooner you could switch on your own longevity gene.

Unleashing a younger-feeling, younger-looking, healthy, more vibrant version of yourself.

I'll tell you how to claim your worry-free supply in just another moment.

But, so far I've barely even mentioned what Bio PT Elixir can do for your body "behind the scenes."

For example...

Bio PT Elixir can help you ace your next doctor's visit with outstanding blood work

You can't see or feel your cholesterol levels...but you know your doctor wants you to keep them in check.

And there's nothing worse than seeing the look on your doctor's face as he's reviewing your lab results—it feels like you're a child, being scolded for doing something wrong.

But Bio PT Elixir has the nutrients you need to support healthy cholesterol levels.

In one animal study, PT alone helped conquer bad cholesterol while boosting the good cholesterol that your body uses for repair.

You'll also get green tea—shown in studies to help promote healthy cholesterol levels in adults.

In fact, one population study among Japanese adults showed that men who drank the most green tea were the most likely to have healthy total cholesterol.

While a review of animal research showed that green tea may actually help prevent your body from absorbing as much cholesterol from food—instead simply eliminating it from the body.

Just the kind of results you need for peace of mind *and* a healthy heart

And let's not forget about blood pressure. PT works wonders for not only protecting your blood vessels, but also for maintaining healthy blood pressure *levels*.

In one study, people taking a high dose of PT maintained healthy top and bottom blood pressure numbers.

And you can get even more blood pressure support from grape skin extract, resveratrol, and pomegranate. In one small study, subjects who drank pomegranate juice for one year saw improved systolic blood pressure levels!

Just imagine enjoying the peace of mind that comes with doing something natural, easy, and amazingly healthy for your body.

Without choking down a fistful supplements and pills...without giving up all of your favorite foods...and without sweating away for hours in the gym.

Folks who've tried it so far love it!

"My health is great! I get so much energy from my smoothie each morning, and everyone thinks I'm younger than I am...I'm 63 years old!" – Alice D., Rochester, VT*

But Bio PT Elixir doesn't stop at heart health. Because nearly every single ingredient in this delicious daily drink is...

A powerful natural way to help ensure a healthy inflammatory response

Inflammation is not only a healthy biologic response, it's essential to life.

But as we age, our inflammatory responses—to injury, infection, or illness—can go a little haywire, going above and beyond what's healthy.

Sometimes we can feel it. Like when our knees get cranky, our shoulders get creaky, or our hands and fingers feel a little rusty.

But other times we can't see it OR feel it. It's on the inside threatening heart health and wreaking havoc on our cardiovascular system.

Thankfully enough, antioxidants help promote a healthy inflammatory response throughout your body.

And every delicious daily serving of Bio PT Elixir is absolutely PACKED with antioxidants

Cherry, pomegranate, green tea, and more—deliver targeted polyphenol support to help ensure healthy inflammatory response.

- Helping you feel flexible, mobile, and on top of your game.

- Supporting an active, independent lifestyle—tackling daily chores, a stroll through the museum, a game of catch with your grandson—with ease.
- Protecting your heart and cardiovascular system for the energy and endurance you need to enjoy each and every day to the max.
- Ensuring healthy circulation—from the tips of your fingers all the way down to your toes.

You also get a healthy dose of magnesium. Magnesium may help lower levels of CRP—an important biomarker for heart health and inflammation.

But one of the most unique ingredients in Bio PT Elixir is acai.

Growing mainly in the swamps and floodplains of South America, an extract of this tropical berry has been shown to promote healthy levels of both the COX-1 and COX-2 enzyme—two of the most notorious joint health enemies.

So, as the days and weeks pass, getting out of bed may become easier, navigating stairs may become more comfortable—in fact, don't be surprised if you're inspired to dust off your dancing shoes and take them out for a spin.

Can you see why I'm so excited about this breakthrough?

Once you start using Bio PT Elixir, your friends, family, and neighbors will all want to know your secret.

Whether or not you tell them? Well, that's entirely up to you.

Supplies of Bio PT Elixir are already in high demand and supplies could soon become limited. Once people try it, they never want to go back to how they felt before...

"I have been using this product for over one year and during that time I've found it to be a great booster for energy and general health and wellbeing. I am 69 years old and have the energy of someone half my age." – Jeff Carlson, Sausalito, CA

"I noticed a difference in about 24 hours...but much more by two weeks. I do feel better, more energy, my blood tests are really good, and my doctor is happy." Tony C., Charleston, SC*

I can't wait to hear your story too...

**Blood sugar concerns? You've got support!
PLUS a healthy metabolism and a trim physique**

PT is a champion of supporting balanced blood sugar and insulin levels...just one more reason you could be feeling great and “wowing” your doctor on your next visit.

Working alongside PT is the essential mineral, magnesium. Magnesium is the ring-leader of more than 300 chemical reactions in your body...and one of the biggies is how your body processes blood sugar and balances blood sugar levels.

Maintaining a healthy blood sugar balance is not only crucial to your energy levels but your overall health.

That’s why the daily serving of magnesium in each scoop of Bio PT Elixir is so important.

You also get a powerful serving of exotic goji berry extract, shown in vitro to support healthy circulation to the retina—in the back of your eye. This helps ensure you get to see all of life’s best moments with clear, focused vision.

What’s more, the powerful array of polyphenols in each daily scoop can help support a healthy metabolism. While powerful nutrients, like EGCG in green tea, may help you maintain the trim, slim body you want.

And as the days and weeks pass, you’ll look forward to walking by your mirror...you’ll be beaming with pride as you sit by the pool...you’ll want to stand on every hill, mountain and rooftop, shouting to the world about how amazing you feel!

“It’s good stuff and gives me lots of energy. I can’t think of anything to make it better—in fact, I could use another shipment.” – Ryan M. in Worcester, MA

But if that isn’t enough, just wait until you wow your friends and family with your brilliant wit and razor-sharp memory.

**They say the mind is the first thing to go—
NOT with Bio PT Elixir on your side**

Few things are more important to a long-term, independent lifestyle than clear, focused vision, a sharp memory, and a finely-tuned brain.

And resveratrol does a great job of sharpening your memory.

In fact, a 2014 placebo-controlled study showed that 200 mg of resveratrol a day enhanced memory, retention, *and* overall brain function in older adults.

But here’s the thing... A recent animal study showed that PT does a *better* job than resveratrol when it came to memory tests and cognitive function.

And Bio PT Elixir gives you both nutrients in one place! With 25 mg of resveratrol and 25 mg of PT.

You'll get even more memory-protecting power from blueberry—helping to keep your mind, your memory, and your independence fine-tuned and well-protected.

The tropical acai berry is another potent weapon to help keep you sharp. It protects your brain against the free-radicals that can lead to age-related cognitive problems.

You even get a potent dose of bilberry, which preliminary research suggests may help:

- Promote healthy vision
- Protect your eyes from UV damage
- Prevent eye strain

It may even help promote sharp vision at night.

That could mean driving with confidence—even at night—to head out on vacation, visit with family, or in case of an unexpected emergency.

Ten great reasons to toss out every other bottle in your medicine cabinet

Bio PT Elixir is the only comprehensive solution powerful enough to help:

1. Activate your “longevity gene”—helping you live longer, feel more independent and able to enjoy each and every day.
2. Rewind cellular aging—for a youthful brain, heart, eyes, joints, hair, nails, and skin.
3. Protect your heart—rest easy knowing you have support for great cholesterol and blood pressure numbers.
4. Take the extra worry out of dinners out with the family thanks to supported healthy, balanced blood sugar levels.
5. Ensure healthy, flexible, comfortable joints—so you can enjoy a stroll, a bike ride, or a day in the park with your grandkids.
6. Maintain sharp brain power and clear, focused vision—even at night, for worry-free driving and independent living.
7. Support a quick metabolism—so you can feel trim, slim, and confident.

8. Support your immune system and stay healthy all year round, even during those cold winter months of the holiday season when you'd rather be visiting with family.
9. Support strong, healthy bones and muscles—carry in your groceries, handle a flight of stairs with ease, even pick up your grandkids without the slightest twinge.
10. And so much more.

All in one fast, simple, delicious, berry-flavored drink that you can look forward to every morning.

Forget pills...pills are a chore!

Besides, if you were to buy a supplement to address each and every one of Bio PT Elixir's tremendous array of health benefits, you'd have to choke down two fistfuls worth, every single day...*and* you might have to take out a small personal loan just to afford them all.

And forget about those cheap grocery store multivitamins—those horse pills can't deliver the anti-aging power even a shot glass of Bio PT Elixir does.

Of course, you could try packing your fridge with antioxidant-rich foods, and that's still a great idea...but each daily scoop of Bio PT Elixir starts with 25 mg of PT.

You would need to eat 1,000 cups of blueberries (that's over 330 pounds!) to equal the PT in just one scoop of Bio PT Elixir

And let's be honest, blueberries aren't cheap!

Neither are pomegranates, raspberries, blackberries, cherries, or grapes. And good luck even finding acai, goji, or bilberry in your local grocery store.

Your weekly grocery bill would be in the thousands!

Just look at all of the powerful extracts Bio PT Elixir delivers:

| | |
|--------------------------|--|
| Acai Fruit Extract | Promotes healthy, comfortable joints—helps protect the brain against age-related cognitive decline |
| Bilberry Fruit Extract | Promotes healthy vision, prevents eye strain, may improve night vision |
| Blackberry Fruit Extract | Helps protect skin against the sun's damaging UVB rays |
| Blueberry Fruit Extract | Supports memory, focus, and concentration |
| Cherry Fruit Extract | Helps promote a restful, recharging night's sleep |
| Cranberry Fruit Extract | Supports bladder and urinary tract health |
| Elderberry Fruit Powder | Promotes a strong, healthy immune system |

| | |
|---------------------------|---|
| Goji Berry Extract | Supports supple, youthful skin—Promotes healthy circulation to the eye's retina |
| Grape-skin Extract | Powerful source of youth-preserving antioxidants |
| Green Tea Leaf Extract | Supports healthy cholesterol levels and a healthy metabolism |
| Pomegranate Fruit Extract | Helps maintain healthy blood pressure levels—promotes healthy inflammatory response |
| Raspberry Fruit Extract | Powerful source of youth-preserving antioxidants |

Best of all...

- ✓ **You WILL feel a difference in your energy...**
- ✓ **Your doctor WILL marvel at the improvements in your labs**
- ✓ **You WILL notice a difference in your youthful appearance when you look in the mirror**

OR IT'S FREE!

If something sounds too good to be true...it usually is.

That's why I'm standing behind Bio PT Elixir with a 100% unconditional LIFETIME customer satisfaction guarantee.

YOU CAN TRY BIO PT ELIXIR FOR AS LONG AS YOU LIKE.

Most folks notice a difference after just a few short days, maybe a week. But that means Bio PT Elixir is just getting started.

Week after week, month after month—you'll enjoy sharper thinking, younger-looking skin, crystal clear vision, comfortable, regular digestion, and the energy you need to enjoy every moment of every day.

After a few short months, you'll wonder how you ever lived without Bio PT Elixir!

But you don't have to take my word for it. If you aren't completely blown away...if you don't feel a dramatic change in your drive and stamina...if you don't feel your inner spark reignite... if you aren't completely satisfied at any time, for any reason, just give us a call.

We'll refund your entire purchase price (less shipping), no hard feelings and no questions asked. That means there's absolutely no risk for giving Bio PT Elixir a try today.

But don't wait...this won't stay a secret for long

The news about PT is going to hit mainstream headlines any day now.

And when it does, it's going to get harder and harder to get our hands on a steady and affordable supply that meets our strict standards of purity and potency.

But I want you to be able to try it for as long as you like...I want to ensure you never run out...and, most important—I don't want you to have to pay a penny more than you have to.

So, I'm going to make you five very important promises

If you order Bio PT Elixir today and choose our FREE, convenient EZ-Ship option:

1. **Shipping is always 100% FREE.** That's a savings of over \$83 a year.
2. **You'll never run out of Bio PT Elixir.** And you'll never have to worry about forgetting to place your next order. Because we'll automatically send a fresh supply, right to your door, just before your current supply runs out.
3. **You'll get priority shipments.** Even if we have a flood of orders tomorrow, and our current supplies fly off the shelves, YOUR orders are always filled first.
4. **You'll never pay a penny more.** Even if our costs *double*, the low price you pay today will never go up for as long as you're enrolled in EZ-Ship.
5. **You can change, suspend, or cancel your EZ-Ship service at any time.** No penalties, no hidden fees, and no contracts. EZ-Ship is designed to work for you. So if you ever want to change the timing of your deliveries or simply cancel altogether, just give us a call and we'll take care of everything.

EZ-Ship is the easiest, most convenient and affordable way to ensure you continue turning back the clock—infusing every cell in your body with the power to dive into life with a renewed sense of drive, confidence and spirit.

That's why the time to act is now.

You're never going to want to go a single day without your daily glass of Bio PT Elixir.

Especially as the days turn into weeks and the weeks turn into months...

The longer you take it, the better you'll feel, the younger you'll look and the longer your life will be!

So, if you're truly serious about getting started, I'll give you all the details you need to save up to \$83 and secure today's low price when you click to the order page.

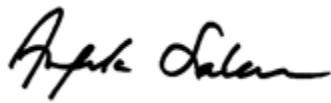

But remember, no how much you order, you're 100% protected by my unconditional satisfaction guarantee.

So, hurry. Supplies are going to go fast—claim your risk-free bottles of Bio PT Elixir TODAY

Get ready to feel the power of a longer, more youthful life...enjoy more time with the family, relaxing vacations, and independent living...rediscover your youthful glow and so much more.

Claim your risk-free supply of Bio PT Elixir now!

Yours in great health,

Angela Salerno
President
New Summit Nutritionals

P.S. My team is ready for the tidal wave of orders that are about to come through. But there's no way to know how long supplies will last. So, click the order button below and secure your supply immediately. And you can qualify for a savings of up to \$83 and keep today's low price for as long as you like by signing up for EZ-Ship. Remember, Bio PT Elixir delivers two of the **ONLY natural compounds shown to "switch on" the longevity gene helping you live longer, stronger and healthier.** You'll discover lasting, natural energy, heart protection, a sharp mind, healthy blood sugar—even supple, young-looking skin. [So why wait? Click here to claim your risk-free supply now!](#)

**Users were given a coupon toward a future purchase to share their experience.*
