"I started taking Joint Renewal around last fall... I haven't found anything that works like it!"

What is Joint Renewal?

Joint Renewal actually heals and rebuilds your joints from the inside out for **comfort, mobility and flexibility you can feel, FAST**. Using two powerful, natural, clinically studied ingredients, Joint Renewal halts the enzymes that destroy your joints—it **cools and reduces inflammation** allowing your body to build healthy new cartilage. All without a single negative side effect! And because Joint Renewal works by actually *healing* your joints, you can count on **real lasting comfort that continues improving with each passing day and week**.

What is causing my joint pain?

Over time, aging, certain medications, and just the wear and tear of living can cause a build-up of harmful, inflammatory enzymes in your joints—breaking down the cushioning cartilage in between your joint bones.

Left unaddressed, eventually your cartilage is completely worn away and your bones start to grind against one another...leaving you with pain, stiffness, inflammation, and decreased mobility. And boy does it hurt!

When your joints feel like they're on fire, I know your first move is dousing those flames so you can get back to enjoying an active lifestyle. Road trips and vacations...gardening and housework...hitting the dance floor or even the tennis courts.

But those mainstream solutions are only temporary solutions.

And most of them come with side-effects that only make things worse. That's why Joint Renewal only uses 100% safe, natural and effective ingredients to halt the build-up of enzymes that break down your joints.

Joint Renewal helps reduce inflammation, allowing your body to build healthy, new, cartilage for comfort, relief and flexibility you can feel...starting in no time!

Damaged Joint

Aging, injuries, medications and basic wear-and-tear causes a build-up of dangerous enzymes to eat away at the cartilage between your joints. Leaving you with stiff, aching, painfully inflamed joints.

Normal Joint

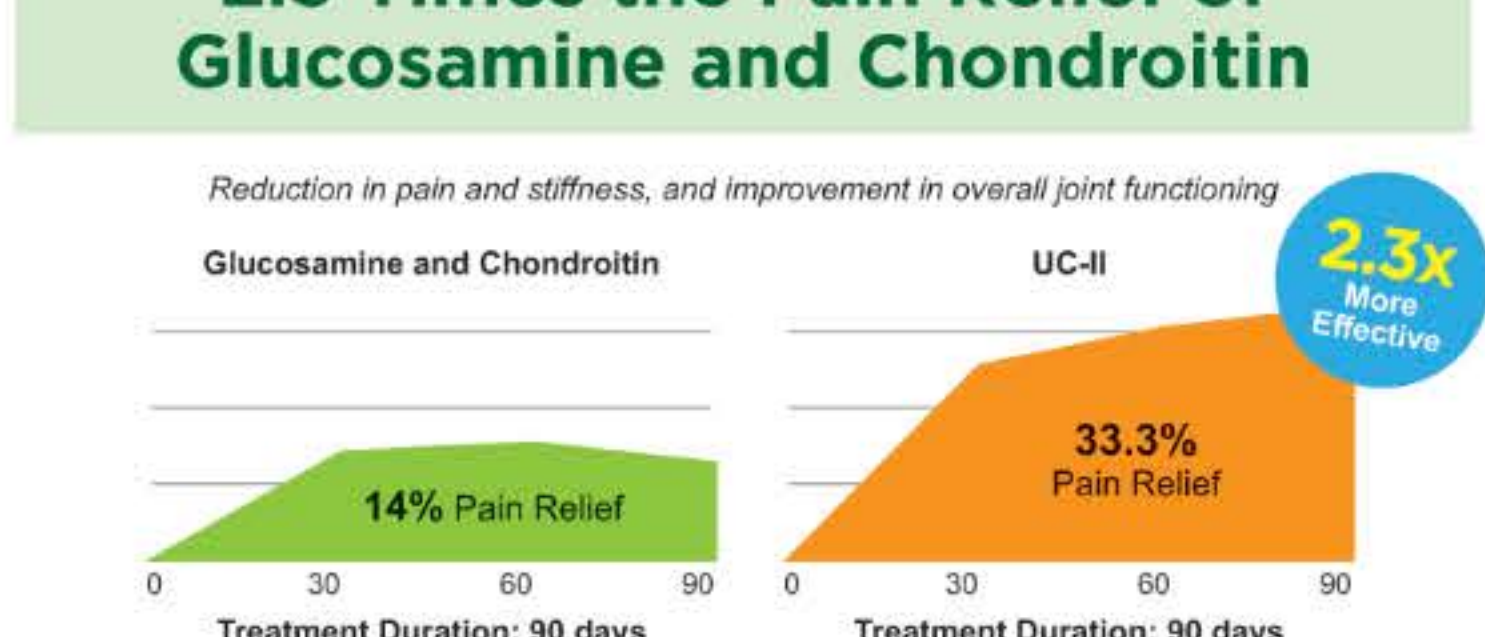

But Joint Renewal can halt the enzymes that damage joints, reducing inflammation and allows your body to build healthy new cartilage for comfort, flexibility and mobility you can feel quickly.

What makes Joint Renewal so different?

Most of those mainstream standbys are only a temporary solution. They cover up pain and temporarily relieve inflammation so that you can get on with your day... they don't do anything to repair the underlying damage—the true causes of your pain and stiffness.

But Joint Renewal, which includes UC-II Collagen, works to halt the ongoing damage, defeating the causes of inflammation and helps the body actually build healthy new cartilage. In essence, building healthy new joints from the inside out.

Even glucosamine and chondroitin can't do what Joint Renewal does. Studies show they're only effective about half the time and can take weeks to "kick in." But Joint Renewal starts working FAST!

The chart above shows the comparative effectiveness of UC-II versus glucosamine and chondroitin in treating knee joint discomfort over a 90-day test period.

Why should you choose Joint Renewal?

- Just one, small, easy-to-swallow vege-cap per day for little more than you'd spend on a postage stamp
- Powerful combination of UC-II and Cavamax® W8 curcumin addresses the source of your stiffness and discomfort
- Cavamax® W8 is up to 40 times more bioavailable than ordinary curcumin
- Clinically researched ingredients at the dosages found most effective in studies
- Vegetarian, gluten free capsules manufactured at GMP certified, FDA inspected facility

Joint Renewal helps to promote a healthy inflammatory response—supporting comfortable, flexible, joints—so you can enjoy a healthy, active lifestyle.

Targeted. Concentrated. Powerful.

So many joint supplements have a laundry list of ingredients as long as your arm. But don't be fooled—most of their ingredients are nothing more than "label dressing" masked to look like you're getting a stronger joint supplement.

Joint Renewal takes a very simple approach. You'll get two of Nature's most powerful, inflammation-fighting, joint-healing nutrients, at the dosages shown most effective in double-blind, placebo-controlled, clinical studies.

Cavamax® W8

Cavamax® W8 is 40 times more absorbable than ordinary curcumin. And clinical trials show that curcumin can:

- Decrease joint discomfort and stiffness
- Improve joint mobility and function
- Deliver powerful joint protection
- Balance inflammatory response

And enhanced absorption means Cavamax® W8 delivers its active components right to your joints—beating inflammation, reducing discomfort and supporting healthy, flexible joints. So you can get back to a pain-free, healthy, active, lifestyle—FAST!

UC-II Collagen

UC-II is backed by six successful, human clinical studies, and was even studied by researchers at Harvard Medical School. It works quickly, safely and naturally to...

- Soothe and repair tired, creaky joints
- Restore your body's natural cartilage repair process
- Promote enhanced flexibility, mobility, and independence
- Ensure smooth, comfortable, lubricated joints

UC-II gets to the root of the problem, working from day one, blocking the harmful enzymes that destroy your cartilage!
