

Backed by research conducted at Mayo Clinic, National Institutes of Health, University of Oxford, Wake Forest School of Medicine and more!

*At 78, doctors said Mary's "brain fade" was "normal." But...*

**"In just two weeks, I was remembering childhood friends...family vacations... dancing with my prom date...I can even remember words better." – Mary M.**

Her doctors were stunned—the change in Mary was that dramatic.

And the secret that turned Mary's life around is now available to you and the people you love.

**You've been selected to learn how this 78-year-old's memory was restored to better than new.**

And how you can use her secret to:

- Protect your precious independence
- Revive your fading memory
- Sharpen your focus
- Strengthen your concentration
- Slow mental aging
- Restore a positive outlook
- And more...!

Keep reading and learn how to **HALT AND REVERSE MENTAL DECLINE** with the natural solution that's stunning doctors and changing lives!

**Protect your memory...your focus  
...your precious independence!**

Dear friend,

Everyone jokes that the mind is the "first thing to go."

But age-related memory loss is no laughing matter. Especially when it's happening to you...your spouse...a parent...anyone you love.

It doesn't have to be that way...and I have proof backed by studies conducted at the Mayo Clinic, National Institutes of Health, University of Oxford and more!

**Halt and reverse age-related mental decline...in as little as two weeks!**

This level of brain support means more than just remembering appointments...dates... directions...phone numbers. In the grand scheme of things, let's be honest, these things are annoying, but they're small potatoes.

**I'm talking about ensuring your independence, your safety and your quality of life.**

If you don't want to become a burden to the people you love most, protecting your mental clarity is crucial.

And nobody knows that better than Mary's husband.

**"At first I thought she'd just become absent minded, but it kept getting worse. Then I got that phone call..."**

Mary left the house around noon to run some errands.

When three hours had passed, her husband started worrying. Until finally the phone rang and it was Mary.

*She sounded scared and confused. I thought she'd been in an accident. She'd only gone up the road to the grocery store. It's a few miles from the house—she'd been there a million times before, but she managed to get lost and couldn't find her way home.*

After 36 years of marriage, Mary's husband watched a strong, sharp, independent woman transform into a confused, timid, absent-minded person he could barely recognize.

**The staggering discovery that is shocking doctors and restoring independence, changed Mary's life  
...and it can change yours too**

Mary's husband was at his wits' end...until he read about a cutting-edge discovery that had the medical establishment baffled.

An all-natural solution that could:

- Revive your fading memory
- Sharpen your focus
- Boost your mental energy
- Strengthen your concentration
- Slow mental aging and
- Restore a positive outlook

**But, most importantly, it can protect your safety and your independence.**

It's a perfectly balanced combination of Nature's most powerful vitamins, minerals, extracts and botanicals, clinically-designed and backed by stacks of research and scientific proof.

**It changed Mary's life and it can change yours too!**

### Meet David Blyweiss, M.D.

David Blyweiss, M.D. is the Senior Medical Consultant for the UniScience Group—he's been a practicing physician for 28 years.

He started his career as a clinical pharmacist, formulating medicines and advising patients on the latest drugs, treatments and remedies.

As a pharmacist and physician, Dr. Blyweiss firmly believes that Nature offers perfect solutions to the chronic problems associated with aging. And by giving your body the nutrients it craves, you can prevent, halt, effectively treat and even reverse these problems.

[Click Here to Read More](#)

### Restore short term memory...sharpen your focus...tune in your concentration

Have you ever had to reread the same page in a book? Maybe it was just a paragraph, or even a sentence.

You know you've read every word, but for some reason it just didn't "stick."

Have you ever looked at your watch only to realize an instant later that you still don't know what time it is?

These minor inconveniences could be signs of a far bigger problem. And chances are good that it'll only get worse over time.

### But Nature has a solution to fortify your brain, end memory lapses and sharpen your concentration...fast!

How fast? How about in as little as three weeks!

A 2008 study at University of Reading showed that subjects taking a wild blueberry extract saw vast improvements in short term memory after just three weeks...with continued improvement over the course of the 12-week study.

Of course, this was no ordinary blueberry extract. It was a concentrated, standardized, proprietary powder made from wild grown blueberries.

And a 2009 animal study at the University of Patras in Greece showed that wild blueberries have a profound effect on learning and recall as well.

But this story doesn't begin and end with wild blueberries...not by a long shot.

Just read on and I'll show you how to get your hands on Nature's most potent brain-nourishing wonder.

[Or click here now to try it absolutely RISK-FREE](#)

**ONE FAST RESPONSE BONUS GIFT if you respond today!**

### Powerful brain protection sharpens your thinking and focuses your attention by optimizing blood flow in your brain

I don't need to tell you what happens if blood can't get to your brain.

But even small impairments in blood flow can damage brain cells and have a noticeable impact on your thinking, focus and concentration.

**I only had to look up one address!**

That's where vinpocetine works its magic.

**This extraordinary extract of the periwinkle plant can promote cerebral blood flow and help reverse age-related cognitive impairment. In fact, it's used throughout Eastern Europe for the last 30 years!**

In three separate studies, published in 1986, 1987 and 1991, subjects taking vinpocetine out-performed a placebo group on global cognitive tests of attention, concentration and memory.

It works by improving circulation and transporting glucose to the brain—fueling your brain cells and boosting cognitive function.

**A perfect partner to wild blueberries for promoting memory, focus and overall cognitive well-being.**

[So click here now to claim your RISK-FREE supply of this life changing wonder... PLUS I'll send you the Age-Defying Power Library, absolutely FREE!](#)

## Halt "brain fade" and super-charge your memory with this Sri Lankan swamland secret

It's called *Bacopa monnieri*—it's only found along the banks of marshy swamp lands in India and Sri Lanka.

Its tiny white flowers aren't much to look at, but this creeping herb packs...

- Incredible brain-protecting antioxidant support
- Extraordinary memory-enhancing powers
- Nutrient learning-accelerators...and more!

It's been a staple of Ayurvedic healing for centuries.

But in a double-blind, placebo-controlled study, published in a 2008 edition of *The Journal of Alternative Medicine*, *Bacopa* helped boost memory and recall, improved mood and even helped promote healthy heart rate in just 12 weeks.

**And a 2010 Australian study showed more of the same—improved learning, memory acquisition and retention.**

## Stop forgetting -- restore your memory starting today!

Getting older is inevitable...but we *don't* have to age. That is especially true of our mind and cognitive function.

But to halt this process, we first need to understand what's going on, below the surface, that can lead to mental aging.

- **Time is an enemy.** Over time, our brain cells actually get smaller and their protective coating (similar to the plastic around electrical wires) begins to break down, causing nerve cells to "mis-fire" their electrical impulses.
- **Losing connections.** Your nerve cells work together by firing electrical signals to one another across a tiny space called a synapse. But free radical damage can damage the nerves and create too much space between these synapses weakening your nerves' ability to communicate with one another
- **Keep the blood flowing.** Healthy circulation couldn't be more important...especially as we age. Studies show that even minor changes in blood flow to the brain can have an impact on cognitive function.

**But there is a safe, simple natural solution!** The nutrients packed into each daily serving of *Mem-Plex* are clinically designed to halt this aging process, throw it into reverse and transform your mind and your memory into a younger more powerful you.

***Mem-Plex* goes to work from day one nourishing brain cells, healing nerve cells and boosting circulation to the brain.**

[So don't wait another minute. Click here and claim your risk-free supply of Mem-Plex now!](#)

## But you won't need to travel to Sri Lanka to find this stuff

Because I've combined *Bacopa*, wild blueberry extract, vinpocetine and more into one comprehensive, brain-nourishing powerhouse.

An exclusive brain-optimizing solution that is transforming lives and astounding doctors with its ability to:

- Restore memory...
- Boost mental energy...
- Super-charge brain power...
- Improve focus and concentration...
- Enhance learning...
- And...

[Click here to view complete supplement facts](#)

*"Since I started taking Mem-Plex, I am more alert and energetic. I addressed my holiday cards and I only had to look up one address. To my surprise, I can recall phone numbers more often than before. I will not go without my Mem-Plex."*

--- F. Carver., Lake Worth, FL

### I feel more alert!

*"I am 70 years old, and still work as a consultant in Organasational development. Recalling names in my seminars was becoming a challenge. Since I started using MEM-PLEX [a month ago] I find it very easy to remember names during my seminars. I feel more alert and my reasoning ability more sharp. I am more proactive and able to better schedule my priorities."*

--Tomas M., Oviedo, FL

## Ensure your independent lifestyle for years, even decades, to come

It's called **Mem-Plex** and it's literally changing lives...

It's completely natural...safe...and effective...

It's packed with the purest, most potent proprietary vitamins, nutrients and extracts...

You won't find it in your local GNC, your doctor's office or your local pharmacy...

**Best of all, you can put this incredible brain-health wonder to work for less than you'd spend on a daily apple!**

[So click now to order your risk-free supply of Mem-Plex and claim up to THREE FREE GIFTS and ONE FAST RESPONSE BONUS GIFT just for trying it today.](#)

## Boost your mental energy, improve your mood and feel your best

Have you ever felt too tired to think?

You've read the same page or paragraph three times...glanced at your watch and immediately forgot what time it said...

You've been listening to your friend tell a story and then realize, you've absorbed none of it—you don't even know what she's been talking about.

**Mem-Plex has you covered.**

The same vinpocetine that helps improve memory and focus, can also help reverse mental fatigue—even reaction time.

You'll also get CDP-choline. This important brain chemical helps boost energy production in the brain. While further boosting *Mem-Plex's* learning and memory-enhancing power.

## The most comprehensive support for memory, focus, concentration and overall brain support

Remember Mary? **Mem-Plex pulled her from a world of dependence and uncertainty to an active and independent lifestyle...**and it continues changing lives—defying everything the medical community "knows" about the aging process:

- Reviving memory
- Sharpening focus
- Boosting mental energy
- Strengthening concentration
- Slowing mental aging
- Restoring a positive outlook...

[All for about what you'd spend on a daily apple. So click here now and order with confidence because...](#)

## You're protected by my... 90 Day Unconditional Customer Satisfaction Guarantee

I've watched *Mem-Plex* change lives...I've seen the transformations first-hand. And as the days and weeks pass, men and women alike can feel the fog lift. Their minds feel sharper. Their memory, faster.

Doctors who were sure there was no hope at all, are spellbound to see remarkable changes in their patients' memory, focus, concentration—their overall zest and vibrance.

## But what's most important is that *Mem-Plex* works for you...or someone you love.

That's why I'm willing to give you three months — a full 90 days—to put *Mem-Plex* to the test.

If you aren't absolutely convinced that *Mem-Plex* has changed your life...if you don't see and feel a difference in your brain power, your focus, your concentration, your mood and your outlook, I don't want you to spend a penny.

If you aren't thrilled at any time, for any reason, within the next 90 days...send back any unused portion for a prompt and courteous refund. No questions asked.

And, if you take me up on this offer within the next 48 hours, I have a special gift for you...

**FREE BONUS REPORT:**  
Respond in the next 48 hours and get *The Mem-Plex Revolution*

Too many people believe that memory loss is normal as we age. And while that may

### 3 Easy steps you can take to help prevent "brain fade."

Some folks are simply blessed with good genetics. Look at George Burns—smoked cigars and lived the life well into his 90s and barely missed a step until the very end.

Most of us aren't that lucky. But studies show that:

- People who read books, play games and do crafts enjoy a 30-50% reduction in risk of memory loss
- Study subject who watched less than seven hours of TV per day were 50% less likely to develop memory loss
- Participating in social activities helped decrease chances of memory loss by 40%

According to study author, Yonas Geda, MD of MSc, a neuropsychiatrist at the Mayo Clinic in Rochester, MN, "This study is exciting because it demonstrates that aging does not need to be a passive process. By simply engaging in cognitive exercise, you can protect against future memory loss."

**Plus, when you add Mem-Plex do your daily routine, you're providing your brain with the super-nutrients it needs to boost your mental energy, restore memories, sharpen your focus and more!**

[So turn off the TV, pick up a book, learn a craft, spend time with friends...and order your RISK-FREE supply of Mem-Plex today!](#)

appear to be true, it's not. There are a number of things you can do to protect your memory and cognitive function until well into your 80s, 90s and beyond.

*The Mem-Plex Revolution* dives into the science and research behind this incredible life-changing discovery.

You'll learn about the underlying causes of "brain fade" and how the powerful nutrients in each daily dose of *Mem-Plex* go to work, from day one:

- Reversing the effects of aging...
- Protecting your delicate brain cells...
- Supporting memory, focus and concentration...
- Enhancing mood and boosting your outlook...

Plus you'll get dietary insights, lifestyle tips and brain exercises to keep a sharp mind, a keen focus and help you continue living an independent lifestyle.

**We sell *The Mem-Plex Revolution* for \$19.95...but it's yours FREE if you respond in the next 48 hours.**

Plus, as our way of saying "Thanks!" for your order, I'd like to send you three reports from our "Age-Defying Power Library"...

### **The Age-Defying Power Library is yours FREE just for trying *Mem-Plex* today**

This three-volume library will help you stop time, throw it in reverse and actually undo the effects of aging quickly...safely...and naturally!

#### **FREE REPORT #1: *Stop Aging, Start "Youthing"***

One hundred years ago, the average person lived to about 47. But, many of the diseases that once cut lives short have been eradicated—we're living longer than ever.

But here's the rub. Many adults are not enjoying those extra years. Instead of living long, healthy, active lives, they become debilitated with age related health problems.

You don't have to be one of them! This special report will detail:

- Common lifestyle factors that can accelerate aging...and how to bring them to a screeching halt!
- How a few drops of this "liquid gas" can offset the effects of smoking, pollution, asthma and more!
- The natural path to increased energy and a surging sex drive!
- Three ways to prevent age-related hearing loss!

All, safe, simple solutions, explained in easy-to-understand language. You *can* turn back the hands of time to slow—even reverse—the aging process.

**This revealing report is a \$19.95 value, but it's yours FREE just for trying *Mem-Plex* today!**

#### **FREE REPORT #2: *Good Vision Forever***

One of the greatest fears of aging is vision loss. And it's a well-grounded fear—one in six adults older than 45 experiences some form of vision impairment—cataracts, glaucoma, loss of night vision.

And those statistics grow worse as we get older. But there are safe, affordable, natural ways to protect your most important sense.

Let me send you this report today and you'll learn about...

- The two nutrients that can reduce your chances of macular degeneration by up to 40%
- Five simple lifestyle tips (that barely cost a thing) to protect and enhance your vision
- The Top 10 foods you can eat for better vision

Although our chances of vision impairment increases as we age, you'll learn dozens of tips, insights and simple lifestyle changes you can make, starting today, to protect your vision for life!

**We typically sell this report for \$19.95...but it's yours FREE, today, just for trying *Mem-Plex*.**

#### **FREE REPORT #3: *The Anti-Wrinkle Diet***

The old adage that "no sin goes unpunished," is particularly true when it comes to your skin. As the years pass, those sins show up as fine lines and wrinkles...thinner drier skin...unsightly spots and blemishes.

But recapturing your youthful appearance doesn't have to mean spending a fortune on chemically-packed anti-aging potions or expensive Botox parties.

This helpful and insightful report will reveal...

- The skin-damaging link between the sun, inflammation and aging...and the foods, many of them already in your kitchen, you can eat to stop them.
- The age-accelerating fats to absolutely avoid...and the three nutrient-rich fats that can actually reverse your skin's aging process
- How these three common vegetables don't just offer antioxidant support...but a skin-moisturizing boost as well

- Why drinking plenty of water helps eliminate toxins...and why these three other beverages can slow the effects of aging, halt inflammation and nourish your skin

You'll even get recipes for easy to make, age-defying foods that are not only healthy and delicious, they can actually help erase fine lines, wrinkles and give you back your youthful radiance.

Dishes like poached pears in wine sauce...Mediterranean salmon...spinach-raspberry salad and more!

[The Anti-Wrinkle Diet](#) retails for \$19.95. But it's yours FREE when you order your risk-free supply of Mem-Plex today.

Get this power library – yours FREE – when you place your order.

And remember, I'm guaranteeing your quick results...

**In as little as two weeks you will experience a noticeable difference in memory, focus, concentration and overall cognitive function— guaranteed**

*Mem-Plex* goes to work from day one, reversing years of aging...free radical damage...nutrient deficiencies and more.

But remember, if you aren't 100% convinced that *Mem-Plex* is the most powerful, most comprehensive brain support you've ever tried...send it back. You have a full 90 days to put *Mem-Plex* to the test, risk-free.

**The Age-Defying Power Library AND *The Mem-Plex Revolution*, a \$79.80 value, are yours to keep, with my compliments, just for trying *Mem-Plex* today.**

So why let another day slip by? Why allow your mind to become a slave to aging? Protect your focus and clarity...protect your independence or the independence of someone you love.

[Order your risk-free supply of Mem-Plex today!](#)
