## THREE SAFE, NATURAL, AND EFFECTIVE WAYS TO KEEP THINGS HOT IN THE BEDROOM!

**M**y name is Dr. Allen Green. As a medical doctor, I know how important sex – *and a healthy orgasm* – is for your body.

In fact, I believe vigorous intercourse does more for your body than any drug ever invented. Hot passionate sex, and all the huffing and puffing that goes along with it, can:

- ↗ Strengthen your heart and lungs
- ↗ Keep arteries supple and clear
- ↗ Maintain healthy cholesterol levels
- ↗ Burn calories and melt away fat
- ↗ Bathe every cell in your body with vital oxygen
- ↗ And give you really good sleep

And I don't have to tell you that earth-shaking orgasms are one of the greatest stress-releasers known to science.

I also know that as we age, we start to lose some of our strength, our muscle tone, our sex drive and... let's be honest, "equipment failure" in the bedroom becomes a very real challenge.

But **N-O Sanguenol** gets to the root of every single one of those challenges – usually from the very first dose.

That's thanks to Nobel Prize winning scientists who uncovered the hidden "switch" to rev up your nitric oxide levels (*that I call your "Erection-Hardening Factor"*) for solid, strong, and long-lasting sexual performance!

Scientific studies on the ingredients in **N-O Sanguenol** show:

- ↗ **Blood vessels OPEN by 62% – with ONE dose**
- ↗ **99% boost in nitric oxide levels**
- ↗ **Healthier blood pressure to help feed starved organs FAST**

And the longer that you take **N-O Sanguenol** – the better you'll FEEL!

It's a three-pronged approach that's nothing short of revolutionary! Because NOW – for the first time ever – there's a tested way to MAXIMIZE your levels of N-O in three specific and potent ways:

### 1. Give your body what it needs to make N-O

If you recall, l-arginine is the raw material your body uses to make N-O. But when you take l-arginine as a supplement most of it's broken down and digested long before it gets to your blood vessels where it's needed most.

But l-citrulline solves that problem in a **HUGE** way.

Your body can turn l-citrulline *into* l-arginine. And because it's not broken down in the intestines, the liver or the kidneys, you actually get **TWICE AS MUCH** l-arginine.

**In other words... l-citrulline produces l-arginine in the body better than l-arginine does!**

But it gets better.

Because a study in the *Journal of the International Society of Sports Nutrition* reports you can boost the effects of l-citrulline by combining it with the master antioxidant called glutathione.

That's a huge N-O boost to help open blood vessels, optimize circulation and help attain...

- Rock-solid erections
- Lasting sexual endurance
- Boost heart health
- A better sex life
- Better lung capacity
- More productive workouts
- Faster post-workout muscle
- Quicker cardiovascular recovery

This is only the beginning because **N-O Sanguenol** also gives you the nutrient your body needs most to...

## 2. Stimulate production of N-O

Resveratrol is nothing new. It first made headlines more than a decade ago when studies showed that it could actually extend the lifespan of mice... even when they ate a terrible diet.

It was around that time we started hearing about “the French paradox” as well. The idea that the French could each crusty breads and rich, buttery sauces without the same cardiovascular repercussions that most of us would suffer.

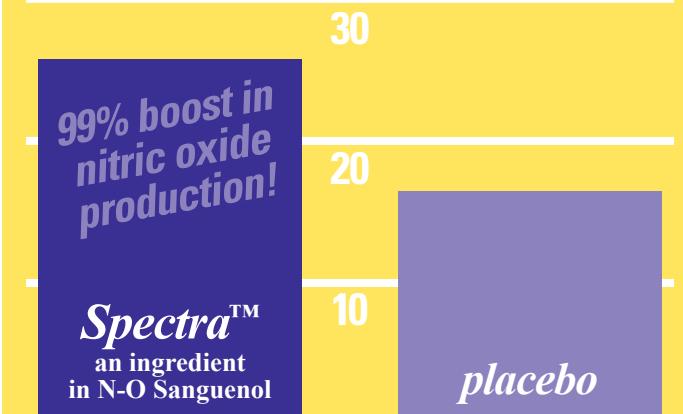

As it turns out, red wine, rich in resveratrol, was the secret behind the French paradox. And we now know that among other things, resveratrol is a powerful antioxidant with a tremendous list of benefits.

But, one of its most important powers is one that you seldom hear about, and that's a shame.

## DOUBLE YOUR N-O!

N-O Sanguenol can double your nitric oxide levels, allowing your blood to flow like a fast-moving river!

### Circulating N-O concentration:

According to the study of Spectra™ featured in Food Science & Nutrition published by Wiley Periodicals, Inc.

Because, in a double-blind, placebo-controlled study, researchers at the *University of South Australia* discovered that not only does resveratrol help stimulate production of N-O, it helped open blood vessels by 62%!

And that *includes* the blood vessels in your penis.

So just think about how much better you can perform with up to 62% wider arteries and blood vessels pumping nutrient-rich blood to, not only your “equipment” but to your heart... brain... lungs... and throughout your entire body.

But N-O molecules are extremely delicate. So while you're boosting your N-O levels – you've also got to...

### **3. Protect N-O from breaking down so that its effects last longer!**

N-O is formed from two molecules: nitrogen and oxygen. And any time there's oxygen involved in a molecule, the attack of free radicals multiplies by quantum leaps!

You've heard of free radicals right? They're the rascals that cause severe damage to cells... prevent healthy cell replication... and even disintegrate the nucleus of cells!

Free radicals have been shown to gobble up... hijack... and wreak havoc on N-O production!

That's why **N-O Sanguenol**'s third, and perhaps most important prong, is a full-spectrum antioxidant called **Spectra™**.

**Spectra™** contains 38 vitalizing nutrients to fight the onslaught of all five classes of free radical attacks. Studies show this super-duty antioxidant powerhouse can...

- ↗ Reduce the free radicals that can damage N-O by 42% in just two hours
- ↗ Reduce free radical related inflammation by 35%
- ↗ Increased cells' ability to consume oxygen by 141% in one hour
- ↗ Help boost N-O levels by up to 99%

Please know this: In the scientific field, this level of antioxidant protection – from all five types of free radicals – *is nothing short of AMAZING!*

And that's why including **N-O Sanguenol** as part of your everyday regimen delivers circulation-boosting benefits that can transform your sex life, reboot your prowess and supercharge your workouts.

Because you're getting the synergistic benefits of all three of **N-O Sanguenol**'s circulation-boosting powers, you're on track to relive the wall-shaking, sweat-dripping sexual adventures you may have thought were gone for men our age.

As you can see **N-O Sanguenol** makes that famous blue pill look about as effective as candy.
