

**CARDIAC ALERT!**

Supported  
by the  
American  
Heart  
Association

# Freeze the world's leading cause of death in its tracks!

Heart disease will claim almost  
**70,000 lives this year.<sup>1</sup>**

But you can, safely, quickly and naturally:

- ✓ Cleanse the blood of deadly blood fats
- ✓ Dramatically lower your risk of cardiac events
- ✓ Protect yourself against stroke

Without a prescription, without a doctor's visit  
and without emptying your wallet.

"Adding this  
one safe and  
powerful nutrient  
to your daily diet  
can help keep  
you out of the  
doctor's office for good!"

—Dr. Victor Marchione

See inside now to learn about the only natural  
solution, backed by the American Heart  
Association, and guaranteed to:

- ▶ Support healthy cholesterol levels
- ▶ Maintain healthy triglyceride levels
- ▶ Promote healthy blood pressure
- ▶ Protect and strengthen your heart
- ▶ And so much more

**Plus claim three cutting-edge  
health reports absolutely FREE!**

# Cleanse your blood, protect yourself against the world's

Dear friend,

Imagine a world where heart disease doesn't exist. High cholesterol. Blood pressure concerns. Stroke. All problems of the past.

Wiped out by a single natural substance. It's abundant, inexpensive, extremely easy to find and *it cleanses your blood of deadly fats safely, quickly and naturally.*

The best part? There's nothing imaginary about it. This substance is real.

**And living a long, healthy life, with reduced risk of heart disease is an honest-to-goodness reality**

But despite the powerful natural benefits of this heart-guarding wonder, the mainstream

medical establishment all but ignores it.

It works *too* well. And there's no money to be made from it.

You won't hear much about it in the newspapers or in the mainstream headlines either.

So, give me just a minute of your time. Because I'm about to introduce you to the source of the purest, most powerful and incredible life-changing substance Nature's ever bestowed upon us. Because, believe me...

**Protecting yourself against heart disease is just the tip of the iceberg**

The powers locked into this incredible natural wonder rival the benefits of every vitamin, every

## Take *that* Pfizer...

The major drug companies have triumphed in making cholesterol among the most feared markers of heart disease. And if that weren't bad enough, they have us believing that cholesterol-lowering statin drugs are the only answer to the cholesterol problem.

But here's the truth.

A German study, published in the January 2008 edition of *Health Canada Natural Health Products Directorate Monograph*, shows that **fish oil supplements are actually more effective than cholesterol-lowering statin drugs.**<sup>8</sup>

And they don't require a doctor's visit, a prescription and they won't empty your wallet. Plus fish oil supplements come with a broad array of beneficial side-effects.

- Healthy blood pressure levels
- Improved mood, memory, focus and concentration
- Strong, healthy bones (cite)
- Increased flexible and less painful joints
- And so much more

**So turn to page 15 now and learn how you can put one of the purest, most powerful natural sources of omega-3 fish oils to work for you, RISK-FREE. Order now!**

# your heart and safeguard leading cause of death

mineral, ever single nutrient combined.

Because...

**Not only can it conquer cholesterol...  
wipe away blood pressure concerns...  
and protect your cardiovascular system**

It's "side effects" are equally powerful.

I'm talking about one naturally occurring  
substance that can:

- ▶ Cleanse the blood and protect you against heart disease
- ▶ Reverse inflammation, relieve joint pain and strengthen your bones<sup>2,3</sup>
- ▶ Reduce signs of aging from your appearance
- ▶ Boost your energy and restore your youthful vigor
- ▶ Deliver super-charged focus, memory and mental clarity
- ▶ And so much more...

If it sounds too good to be true, read on.  
Because I'll prove that...

**Adding this one nutrient to your  
daily diet can help keep you  
out of the doctor's office for good**

And it wasn't concocted in some lab. It won't cost you hundreds of dollars. You don't need a prescription... a doctor's visit... and most importantly it is natural and safe.

Plus, I'll tell you how to take advantage of my Miracle Month Guarantee.

But first, let me tell you about this "mystery" nutrient.

(continued)

## Meet

### Victor Marchione, M.D.

Dr. Victor Marchione is a leading champion of a new form of medicine. He's using scientifically proven natural remedies in brilliant new ways.

- ✓ He has been featured on *ABC News and World Report*, *CBS Evening News* and the *NBC Today Show* and is the editor of the popular *The Food Doctor* newsletter.
- ✓ Dr. Marchione has also served as Principal Investigator in at least a dozen clinical research projects relating to various ailments.

# One in four people will die of family and the people you lov

That's because you can share the information I'm about to give you.

And you're going to want to do just that once you take my Miracle Month challenge and have an opportunity to feel the difference this natural wonder can make.

Studies show that it can literally cleanse the blood—strip your blood vessels of deadly blood fats and protect you from one of the leading causes of heart disease.

So just what is this amazing nutrient?

It's something so simple and so common, you'll think I'm making this up. But...

## **I've got studies stacked to the ceiling to prove it So just what is it?**

Chances are you've never heard of eicosapentaenoic acid or docosahexaenoic acid. But you may have heard of their abbreviations, EPA and DHA.

EPA and DHA are omega-3 fatty acids.

There are several kinds of omega-3s and all of them are good for your health.

But EPA and DHA are exceptional.

I've found that when these two nutrients are combined their heart-protecting synergy is unmatched

I'm sure this isn't the first time you've heard

of omega-3s. They're a class of nutrient required by your body and *they're essential to optimal health.*

But what I'm about to reveal about EPA and DHA specifically, will not only surprise you. It'll super-charge your health, protect your heart and safeguard you against many of the "side-effects" of aging.

And in another second

## **I'm going to introduce you to one of the purest, most powerful natural sources of this essential nutrient**

How essential?

So essential that the US National Center for Statistics estimates that omega-3 deficiency was responsible for roughly 84,000 deaths in 2005.

In fact, large clinical trials of over 32,000 people show that...

## **Increasing your daily intake of this omega-3 combination can actually drop your risk of cardiac events by 19–45%<sup>4</sup>**

The proof is indisputable. Even the American Heart Association acknowledges that this omega-3 duo can help maintain healthy cholesterol levels, dramatically lower triglyceride levels and promote healthy blood pressure.

Three key factors to protecting your heart, shielding your blood vessels and it's clinically designed to...

## **Help you avoid the world's leading cause of death**

Of course, your doctor will try and tell

### **Keeps my Heart Healthy**

"Omega 3 is keeping my heart in good condition."

—Myron C.

# heart disease...but you, your e don't have to be among them

you that cholesterol lowering statin drugs are the way to go. And he'll be happy to scribble out a prescription for an expensive bottle of cholesterol-lowering pills.

And if blood pressure is a concern, your doctor's got a pill for that too.

Oh, and if you happen to experience side effects from either of those pills...he's got pills for them too.

All of a sudden you've got a medicine chest full of little brown bottles, an empty wallet and you're living at the mercy of your pill-popping schedule.

But when you...

***Add these omega-3s to your diet  
you can obtain true health not just  
a medicine chest full of drugs  
And I'm not talking about just  
the heart medicines!***

Because these two powerful omega-3 fatty acids not only help protect your heart and cardiovascular system, they're powerful anti-inflammatories as well.

That means...

**You can stop worrying about joint pain,  
stiffness and inflammation<sup>5</sup>**

That's right.

*(continued)*

## **Industry experts agree: Omega-3 fatty acids can save your life!**

### **Lower blood pressure... improve arthritis symptoms...**

"Omega-3 fatty acids may decrease triglycerides, lower blood pressure, reduce blood clotting, boost immunity and improve arthritis symptoms, and in children may improve learning ability...omega-3 fatty acids, appears to reduce the risk of heart disease, particularly sudden cardiac death."<sup>9</sup>

—*Mayo Foundation for Medical Education and Research*

### **Reduced risk of coronary heart disease...**

"...research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease."<sup>10</sup>

—*United States Food and Drug Administration (U.S. FDA)*

### **Reduce risk of stroke...**

"Fish contain omega-3 fatty acids, which help reduce the risk for stroke, and the American Heart Association recommends at least two fish meals per week."<sup>11</sup>

—*NY Times*

# “Research shows that consumption of omega-3 fatty acids may reduce the risk of coronary heart disease and even help...

Adding a daily serving of omega-3s can mean tossing out your Tylenol, your Advil...even prescription-strength anti-inflammatory pills, forever.

With each passing day you'll feel those sticky joints become freer...

With each passing week, you'll feel more flexible and vibrant...

**Adding omega-3s to your every day can help ensure a free and independent lifestyle!**

And as yet another benefit, you don't have to worry about the assorted risks that come with most mainstream pain relievers that can have deadly side effects.

*In fact, Omega-3 fatty acids are extremely safe.*

Emerging evidence suggests they can

Combat the world's leading cause of death with **Omega-3 Miracle!**

even help...

**Strengthen bones and protect against osteoporosis<sup>6</sup>**

Can you see why this might be...

**The single-most important nutrient you've ever introduced to your diet**

But the benefits don't stop there.

Because once you add omega-3s to your daily diet, not only will you start to feel increased strength and flexibility...*you'll start to see a difference in yourself as well.*

You see, we combined the omega-3s, EPA and DHA with the powerful antioxidant vitamin E. And from the moment you add it to your diet.

**It goes to work, week after week, combatting the signs of aging**

Smoothing away fine lines and wrinkles.

## Macular Degeneration Halted?

There are studies stacked to the ceiling proving the heart-protecting benefits of the omega-3 fatty acids, EPA and DHA. But did you know they can help protect eye health as well?

It's true.

According to studies conducted by the Massachusetts Eye and Ear Infirmary and published in a 2008 edition of *Insight*:

**Studies have also shown that "omega-3 fatty acids may slow the progression of vision loss from [age-related macular degeneration] AMD and reverse the signs of dry eye syndrome."**

And **Omega-3 Miracle** is one of the purest, most powerful natural sources of omega-3 fatty acids.

**So turn to page 15 now and learn how you can try Omega-3 Miracle, RISK-FREE, and take full advantage of the Miracle Month Challenge. Don't wait. Order today!**

# ion of EPA and DHA omega-3 fatty onary heart disease.” —United States Food and Drug Administration (U.S. FDA)

Moisturizing your skin and hair.<sup>7</sup>

Helping you look young and vibrant...  
feeling healthy and energized...flexible and free  
of painful inflammation and stiff joints.

## Could it possibly get better than that? YES!

Remember when you were sharp as a tack?  
Names...dates...where you left your keys.

As we age, memory, focus and concentration  
start to get a little “soft around the edges.”

But a daily supply of omega-3s can:

- ✓ Help slow the signs of aging...
- ✓ Support your brain health and end the  
fear of “senior moments”
- ✓ Sharpen your focus and recall...
- ✓ Balance mood swings...
- ✓ And so much more

These two omega-3 fatty acids are critically  
important to promoting memory, focus,  
intelligence and overall brain support.

Plus, they’re so incredibly safe and effective,  
pregnant women are encouraged to increase  
their intake of omega-3s to help support the  
neurological development of their unborn baby.

## Introducing one of the purest natural sources of this amazing wonder-nutrient

Omega-3 fatty acids aren’t hard to find.

What is tough to find is a safe, natural,  
*quality* source of omega-3s:

- A source you can trust...
- A source that’s pure and powerful...
- A source that’s cleaned of toxins...

## Omega 3 Supplement Facts

Serving Size: 1 Softgel

Servings Per Container: **60 Servings??**

Each Softgel Contains:	Amount Per Value:
Fish Oil (Omega Oil Concentrate)	1000 mg
* Omega III fatty acids consisting of: .....	600 mg
EPA - eicosapentaenoic acid .....	400 mg
DHA - docosahexaenoic acid .....	200 mg

This Omega oil is ultra pure and  
under goes a 5 step Molecular  
Distillation Process. This product  
is 100% natural and contains  
no artificial ingredients or  
preservatives.

## Omega 3 Hinders Heart Attacks

“The Omega 3 has pushed  
a heart attack to a far distance  
or maybe even, destroyed it.”

—Wally M. Pefferlaw, ON

- A source that can live up to the **XX**  
amazing benefits I’ve been telling you  
about!

## And I call that source the Omega-3 Miracle

The Omega-3 Miracle is made from fish oil.

*But before you cringe, let me assure you that  
the Omega-3 doesn’t taste like fish, it doesn’t  
smell like fish and it won’t leave you with “fishy*

*(continued)*

# “Fish contain omega-3 fatty acids, which the American Heart Association recommends

burps” ever.

Plus, the oil under goes five molecular distillation steps to ensure it's cleaned of toxins like mercury, lead, dioxin, PCBs and other harmful contaminants.

## Ensuring the highest quality, concentrated, pharmaceutical-grade omega-3s

You would have to eat up to four times the softgels made by some other brands, every day, just to equal one daily serving of *Omega-3 Miracle*.

Of course you can find omega-3s in plenty of foods as well.

Fish are, by far, the best natural source of the omega-3s EPA and DHA. Especially cold-water fish like salmon, mackerel and sardines.

But, thanks to toxic, polluted waters, eating too much fish can actually do more harm than good.

In fact, risk of eating too many toxins is so

high, the World Health Organization (WHO) recommends no more than two servings of tuna per week!

Oily seeds like flax, chia, salba and hemp are also rich sources of omega-3s. Even richer than fish. But they're high in a different kind of omega-3 called alpha-linolenic acid (ALA).

And sure, ALA carries its own set of health benefits.

But, the Center for Science in the Public Interest reports that “the omega-3s that FDA considers healthful (DHA and EPA) are not found in plants such as flax seed.”

## *Omega-3 Miracle* is by far the safest, easiest, simplest way to take control of your health

It's among the purest sources of omega-3 fatty acids.

In fact, it's molecularly distilled five times and is over 2200% purer than World Health Organization (WHO) standards.

## Cleanse your Blood and Arteries of deadly fat!

Try *Omega-3 Miracle* today RISK-FREE and get these 3 cutting-edge health reports absolutely FREE!

Turn to page 15 and claim your FREE reports now!

Or call 1-866-531-0466!

# h help reduce the risk for stroke, and the ds at least two fish meals per week.”—*NY Times*

Plus it's got 200% more EPA and DHA than most store brands. That's why I prefer to call our ***Omega Miracle*** an omega oil...not just *fish oil*.

The highly refined molecular distillation even removes the fishy taste. That means no fishy burps—ever!

I can't think of a single other fish oil supplement I'd be willing to stake my reputation on.

And it's purity is 100% guaranteed.

***Omega Miracle*** is safer, without the risk of side effects you would get from just about any pill your doctor can prescribe.

Plus...

**Because it's super-concentrated, you get a full day's serving in 1/4th the daily dose of some other brands**

Perhaps you already knew that a daily serving of omega-3s with vitamin E could quickly, safely and naturally:

- ▶ Cleanse your heart and arteries by cleansing your blood of deadly fats
- ▶ Reverse inflammation, relieve joint pain and strengthen your bones
- ▶ Fight Premature Aging
- ▶ Boost your energy and restore your youthful vigor

## Omega Works

"I've been taking the ***Omega Capsules*** for years now—I'm in my 91st year—no medication, no cane or walker!"

—Mary C., London, ON

- ▶ Deliver super-charged focus, memory and mental clarity
- ▶ And so much more...

But just imagine how much money you'd be shelling out, month after month, if you were to take one pill to achieve any one of these benefits.

Whether it were a prescription medication... an over-the-counter solution...even a high quality assortment of vitamins, mineral and nutrients.

Even if you were paying just \$10 per treatment...you'd be looking at over \$60 a month!

That means, \$50 for a month's supply of ***Omega-3 Miracle*** would be more than worth the price.

**And \$40 would be a steal!**

*But you'll be happy to know...the Omega-3 Miracle won't run you anywhere near that!*
