The Snuz pillow's patented, ergonomic, two-chamber, hourglass design helps cradle your neck, supporting your head and aligning your spine.

That means...

- A more comfortable, restful night's sleep in *any* position
- Less pain and stiffness in your back, neck and shoulders
- It may even help reduce or *eliminate* snoring and sleep apnea

And, unlike ordinary pillows that degrade, lose their shape and turn into a mushy mess...

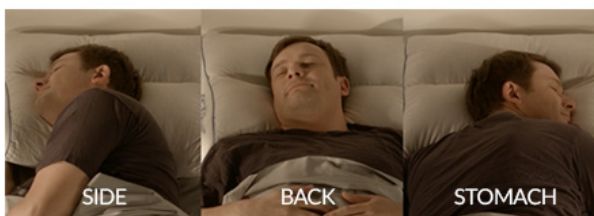

The Snuz pillow is guaranteed to maintain its shape for years to come.

If you're a back sleeper, the Snuz pillow's unique, hourglass design perfectly fits, cradles and supports the curve of your neck and the back of your head...

If you're a side sleeper, the Snuz pillow provides ideal neck support and spinal alignment. And the gentle dip in the middle of the pillow prevents pressure on your ear created by the crown of regular pillows...

If you're a stomach sleeper, the cavity on the bottom creates the perfect channel for your arm, while still offering neck support, spinal alignment and reduced pressure on your ear...

...relieving pressure points, improving circulation, reducing stiffness and ensuring a restful and recharging night's sleep, every night.

You will LOVE the Snuz pillow's silky smoothness and luxurious feel, or your money back*

The machine washable Snuz pillow is made of silky, smooth, luxurious-feeling, 300-thread count cotton and it's filled with ultra-light, super-durable, hypoallergenic fibers that won't break down, degrade and turn into mush like ordinary pillows.

And the open mesh venting on the sides will help keep you cool and comfortable from the moment your head hits the pillow until you wake up refreshed and recharged in the morning.
