

MEN: Reclaim the Sex-Life YOU Deserve!

The most exciting discovery for your sex life since... *women!*

Dear Friend,

Let's not *beat around the bush*. As men, we love sex... we want more sex... and if there's a way to get more sex, better sex — amazing sex — we're all for it.

But here's the thing. As we age, things don't always work the way they used to. And there are few things we fear more than losing an erection, falling flat, or failing to perform in bed.

Well, you can stop worrying!

There's a natural solution that will deliver the power and potency you need. And in no time at all, you'll reclaim the sex life you want and *deserve*.

You see, a clinically designed combination of super-nutrients in just the right amounts can:

Deliver powerful, rock-hard erections...

Super-charge your sex drive...

Ignite your energy...

Rev up your stamina...

I'm John W. Kayne, Senior Researcher for Breakthrough Formulations. And together with Dr. James Lemire, MD, we've created a cutting-edge solution that delivers the *best sex of your life, no matter what your age*.

Sex, energy and stamina — the recipe for success every man fantasizes about!

You could be having the very best sex of your life, no matter what

your age.

But great sex is not just about drive and larger, stronger erections. It's about feeling your best, looking your best and having the confidence you need to dive back into the action.

And, not only does our new discovery deliver great sex, it can also...

- Help you slim down, tone up and look your best
- Support healthy cholesterol and triglyceride levels
- Maintain healthy blood pressure levels
- Supports healthy blood sugar levels
- Even boost levels of "feel good" hormones in the pleasure center of your brain

It's true—the proof is in the science.

Overcome Nature's Cruellest Joke

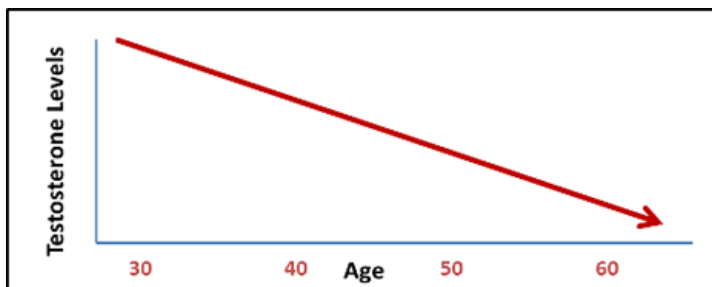

As a man, I know, it's not that you don't want to have sex.

And maybe you're still having okay sex.

But I'm not sure there's such a thing as *too much sex*. Wouldn't you love to reclaim the youthful swagger you thought was gone for good?

I'll show you exactly how you can do just that – even if you thought your all-night *sexcapades* were a thing of the past!

The truth of the matter is, once we hit 30 (yes, that young!) our testosterone levels begin a steady decline of about 1% or more every year. In fact, from age 30 to about 60, our testosterone levels can drop by as much as 67%!

And with it goes our sex drive, stamina and potency – I like to call it Nature's cruellest joke.

As if that weren't bad enough, as your testosterone levels drop, your estrogen levels begin to rise by up to five times the levels you had in your 20s or 30s!

It's like the aging process wants to turn us into women! But that's not all it does...

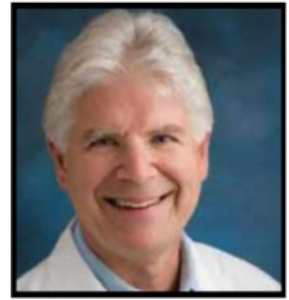

The low testosterone levels that come with aging are also associated with an increased risk of heart disease, elevated cholesterol levels, weight gain, depression and, of course, low sex drive.

But starting today, you don't have to fall victim to this cruel joke.

Because I'm about to introduce you to...

**The most exciting discovery
for your sex life**

[View Supplement Facts](#)

Key #1: Strong, potent erections

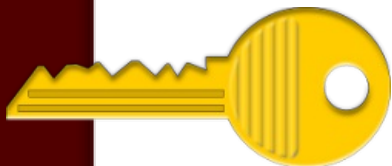

This one's a no-brainer. If you can't get it up and keep it up, you might as well spend the evening watching reruns of M.A.S.H.

That's why *Toroman* starts with a powerful herb called *Tribulus*. *Tribulus* has a long history of use in Chinese medicine for not only boosting athletic performance, but for boosting stamina and strength while triggering the testosterone levels you need to perform at your best.

In fact, a 2008 study, published in *Phytomedicine*, showed that *Tribulus* can boost testosterone levels by up to 52%!

Plus, a study of 212 men with varying forms of impotence showed that *Tribulus* delivered the boost in testosterone that can lead to *significant improvements in both libido and staying power*.

But this is only the beginning...

Key #2: An insatiable sex drive

One of the first

signs of lagging testosterone levels is a lowered sex drive.

So, while *Toroman* gets your "equipment" back up and running, it also goes to work on your sexual appetite with the help of an ancient Malaysian wonder called *Tongkat ali*.

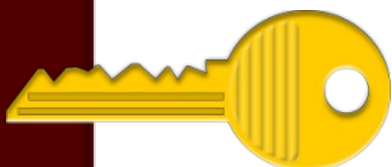

Tongkat ali has a long history of traditional use for:

- Enhancing male libido
- Boosting energy and stamina
- Supporting healthy blood flow...to *everywhere* it needs to go

Healthy circulation is crucial to strong, hard, powerful erections!

And at least two separate 2009 studies prove it!

So, you'll have the energy *and* desire to do it again and again... and with **all the staying power you need**.

Key #3: The energy, stamina and endurance you need to go all night

That's right, all night sex. Again and again.

Because *Toroman* offers a powerful supply of *ginseng*. Chinese medicine has been using *ginseng* for more than 2,000 years to relieve fatigue – boosting energy and physical vitality.

Tribulus is also well known and well-studied for boosting performance and vitality.

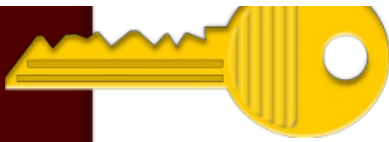

That means, when *tribulus* combines with *ginseng*, you're getting a double-dose of all night energy, endurance and stamina!

A ginseng bonus!

In one animal study, test subjects supplementing with *ginseng* showed a tendency to maintain a healthy weight ...even with a moderate increase in calories! How's that for a bonus?

Plus, you'll be happy to know that *ginseng* also supports strong, healthy circulation (the key to strong, lasting erections!) while boosting your testosterone.

But there's still one more key to an amazing sex life!

Key #4: The desire, confidence and attitude you need to charm your wife all over again

Attitude is everything.

So how do you keep that confident spring in your step, that glint in your eye and the swagger of a man who knows what good sex is all about? *Toroman*.

Stress, anxiety and depression can be libido-killers. And low testosterone is a powerful cause of depression in men.

Add to that the stresses of daily life and the general lack of confidence you may be feeling in the bedroom—it's a recipe for a pretty lackluster sex life.

Not only can *Toroman* recharge your testosterone levels, for the strength, stamina and prowess you're looking for. But *Toroman* also delivers the soothing nutrient power of *chrysin*, a polyphenol with natural anti-anxiety effects. To make sure you're worry-free and focused on your wife... and the task at hand.

A 1994 study, published in *Pharmacology Biochemistry and Behavior*, showed that *chrysin* is at least as effective as one popular mainstream standby, but has no known side effects.

Feeling down? Anxious? Stressed out?

Your mood is one of the most common causes of problems in the bedroom.

To make matters worse, many of today's most common solutions for stress and anxiety come with a whole host of undesirable side-effects, including:

- Decreased sex drive
- Memory loss
- Weight gain
- Drowsiness and fatigue
- Insomnia

A double whammy:
Less stress, no side effects!

But the powerful natural ingredients in *Toroman* can help rinse away the stress and defuse the anxiety that can stand in the way of a healthy sex life.
