# Has arthritis finally met its match?

## 10 Human clinical trials and more than 154,500 pain-free adults on three continents say YES!

Special Report prepared by Dr. Eugene R. Zampieron

Imagine walking down your stairs without so much as thinking about your knees or your hips.

What if you could button your shirt, write a letter or wring out a washcloth without the slightest twinge in your wrists or fingers?

What if you could pick up the hobbies you thought were long gone—dancing, gardening, golfing, biking, bowling, knitting or crocheting?

### What have YOU given up because of creaky, cranky, painful and inflamed joints?

Because, 10 successful, human clinical studies prove that in as little as seven days...

- ✓ You can take back your active lifestyle.
- ✓ You can enjoy your favorite hobbies all over again.
- ✓ You can feel limber, mobile, pain-free and independent—FOR GOOD.

This natural breakthrough in joint repair is backed by 14 US patents, \$45 million in research and it's GUARANTEED TO WORK FOR YOU.

**Plus, it's 100% non-invasive and painless... it doesn't require pills or prescriptions to swallow...and**

**it works in as little as seven days without pokes, prods, needles or surgery.**

Until now, we've only been able to control pain temporarily. Relieve inflammation for a short periods of time. Replace or rebuild joints with painful and expensive surgeries.

But what you're about to discover is an honest to goodness cure. It halts your body's joint destruction process. At the same time it super-charges healthy new cartilage production.

In essence, it can actually replace your tired, worn, cranky old joints and replace them with healthy, flexible, PAIN-FREE, new ones. Here's how it works...!

### How do you turn off the joint destruction switch?

Ten years ago, a group of researchers went to work trying to answer that question. After investing over 45 million dollars, and conducting over 10 human clinical trials, they found the answer.

The secret lies in a precise, all-natural liquid formula that flips off the "attack cells" aimed at your cartilage. This solution has been proven so effective, it's

**"I think it's the finest pain killer in the**

**world. It's fantastic. I am 77 years old and still working seven days a week. I was in terrible pain for many years. By using Vital3® I had no pain at all."**

— A.M., Maine, USA

earned 14 U.S. patents!

By stopping the cause of joint degradation, it removes the source of your pain... AND gives your cartilage the chance to repair and rebuild naturally!

This breakthrough is called **Vital3® Joint Solution.** With just 3 little "miracle drops" a day, it delivers *more relief than all the other joint pain products out there put together!*

In 10 human clinical studies, the test subjects — many of whom had severe joint problems — reported that Vital3®:

- Loosened their stiff fingers
- "Greased" creaky knees
- Eased stubborn backs
- Relieved hip discomfort
- Improved morning stiffness
- Erased joint tenderness

*Continued on next page...*

*Some test subjects even saw their symptoms vanish completely!*

Although it's only been on the market for a short while, Vital3<sup>®</sup> is already generating a flood of "fan mail" from users. I've included some of their personal stories in this report.

### **How do you know Vital3<sup>®</sup> will work for you?**

I imagine you've tried many joint relief "solutions". You've heard lots of big claims — but experienced minor improvements, at best. Wouldn't it be wonderful if Vital3<sup>®</sup> really gave you back your freedom of movement and ended the constant achiness? But how do you know this is the real deal?

Well, let me answer that three ways:

■ **ONE: This solution stops pain with a unique, patented mechanism** that turns off the cause of your on-going joint destruction — and spurs your body into full joint repair mode. It's unlike anything you've ever tried before.

■ **TWO: It's got great "science."** I tell my patients to ignore big promises and empty claims" and stick with products that are backed by at least one human clinical study. This one has 10. And already, it's improved thousands of lives, including people who'd

*gone from clinically disabled to playing tennis a few times a week.*

### ■ **THREE: It's backed by a One Year Guarantee.**

That's pretty much unheard of in the supplement business. The company who makes this is basically saying to you: try it out and take all the time you need. Make sure it works for you. If it doesn't, you haven't risked anything.

If it does — oh, what a change it could make in your life! In as little as a few weeks...

...you could be bounding out of bed every morning without feeling any creaks, stiffness or soreness.

...you could be bending with ease; reaching, lifting, walking, dancing, hiking — and feel like you had shackles removed from your joints!

...you could be trading your cane for a golf club or tennis racket, and get back to all the activities you used to enjoy.

It really is possible. So please take a moment and read this fascinating report. Then give Vital3<sup>®</sup> a try — I think you'll be thrilled with the results.

*Continued on page 7...*

### **PLEASE REMEMBER:**

If your immune system's "attack switch" is left on, it will continue to chip away at your cartilage in an endless cycle of destruction. Decide *now* to stop the damage and end the agony. Try Vital3<sup>®</sup> without risk today — see how on page 23.

# How your joints get stuck in a cycle of destruction

## STEP 1

Injury or acute irritation triggers inflammation.

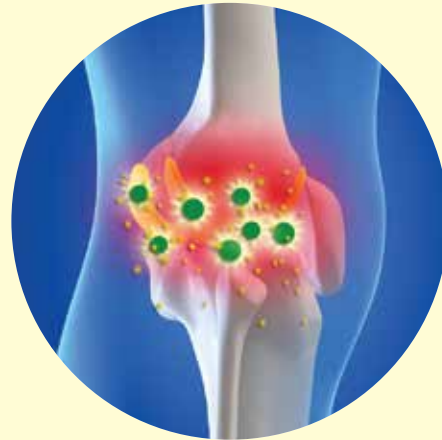

## STEP 2

Normally the injury heals, and the inflammation goes away. **BUT if the irritation continues, the inflammation grows.**

## STEP 4

As your joints suffer prolonged damage, they become more inflamed, and your immune system steps up its attacks. **So begins a downward spiral of joint destruction and pain.**

## STEP 3

Your immune system senses danger and starts attacking what it *thinks* are invading germs. Your joint cartilage gets jack-hammered — a victim of “friendly fire.”

## How Vital3® “shuts off” the joint attacks.

Once Vital3® scientists understood that the real cause of joint destruction is the body’s own immune system, two big questions arose:

First, what would stop the immune system from attacking joints?

Ten years and \$45 million research dollars later, scientists discovered the answer in the breakthrough liquid joint formula, Vital3® Joint Solution.

Second, what was the most effective dose?

After 10 human clinical studies, the precise dose for turning off the joint attacks and rebalancing the immune system turned out to be just 3 drops a day! No more...no less!

Imagine that — 3 little liquid drops added to your favorite beverage fight pain and relieve stiffness better than a roomful of “horse” pills! And you won’t even know it’s there because Vital3® has:

- ✓ No taste
- ✓ No odor
- ✓ No color

And as an all-natural formula, it’s 100% free of side effects!

## Really magic stuff

“I’m 84. I had knee replacement two years ago. Now I’m fully mobile, even able to jog. But my fingers are my major problem. After taking Vital3® Joint Solution for four months **I am staggered that 3 drops of anything per day could make such a difference to my finger dexterity. This is really magic stuff and should be promoted to people of all ages.**”

— R.E., South Australia, Australia

## Terrific results

“My husband suffered shoulder pain for years due to damaged cartilage. Since starting on Vital3® in March 2010, he is practically pain-free... [Vital3® is the] only formula that has shown terrific results quickly and effectively.”

— R.R., Queensland, Australia

## Spry as a spring chicken

“I have been using Vital3® for about three months. My tennis partner tells me I’m running about like a spring chicken. I’m 70 years of age and had lower back problems which are diminishing and no pain in any joints... looking forward to my next tennis match.”

— P.B., New South Wales, Australia

**“Ten years ago, we didn’t think the immune system was involved in osteoarthritis.”**

— Pain specialist Francis Keefe, PhD., Duke University

## The Simple Vital3<sup>®</sup> Solution

**FROM THIS**

**Vital3<sup>®</sup> tells the immune system to stop attacking your joints** — basically turning off the “destruction switch.”

**TO THIS**

With the coast clear, your body is able to go to work **repairing and rebuilding your joint cartilage.**

### Once you stop the joint destruction, three things fall into place:

✓ **You immediately feel less pain** because the attacks on your joints have stopped. The cause of your acute pain has been removed.

✓ **Your joints stop degrading.** Unless you find a way to stop joint cartilage attacks, the damage keeps getting worse. *Vital3<sup>®</sup>'s 3 little drops halt the ongoing destruction.*

✓ **You begin rebuilding cartilage.** Vital3<sup>®</sup> flips your immune switch from destruction to *construction*. Your joints go into heal and repair mode — rebuilding the cartilage you lost, and restoring your ease of movement and flexibility.

### In as little as two or three weeks, you could feel like a new person.

You'll experience improved flexibility in all of your joints, and freedom from lingering soreness that will have you...

- bounding up stairs instead of dragging your feet

## Which supplements turn off your joint destruction trigger?

**Only one — Vital3®!**

- Glucosamine
- Eggshell membrane
- Bromelain
- MSM
- Vital3®**
- Boswellia
- Myrtle
- Devil's claw
- Feverfew
- Bovine cartilage
- Chondroitin
- Sam-e

- opening jars, sewing and writing with complete ease
- swinging a tennis racket... lifting a grandkid...
- carrying groceries...without any aches or creaks

All from 3 little drops a day of Vital3®! In fact, in some clinical trials, people who took Vital3® saw their joint pain symptoms *vanish completely!*  
**Take a look...**

*Continued on next page...*

## TAKE THE QUICK PAIN QUIZ:

Your hand is tender and inflamed. You examine it and see it's got a splinter. Which do you do first:

- a)** Remove the splinter?
- b)** Take a painkiller?
- c)** Apply a healing ointment?

If you chose **(a)**, you're right.

Take out the splinter, and you may not even *need* a painkiller because you've removed the cause of the pain. And you may not *need* ointment because your body now has a chance to heal itself.

That's the simple idea behind Vital3®. Unlike other joint supplements, Vital3® doesn't try to numb your pain or "patch" over it. **It stops the cause** — your overactive immune system — so the destruction ends, the pain disappears, and your joints can repair themselves naturally.

**“Vital3® showed significant improvement in *all* areas tested!”**

— Dr. Z

**10 successful clinical trials over 10 years have confirmed Vital3®’s unmatched ability to relieve joint agony and stiffness!**

**No wonder its breakthrough science was awarded 14 U.S. patents!**

With over \$45 million spent in research at some of the nation’s leading medical schools, Vital3® is among the most clinically-validated natural supplements ever made. Study after study shows that within weeks, many people experience less stiffness and improved joint comfort all day long.

The 10 human clinical trials further support its effectiveness in **relieving knee and shoulder stiffness... improving mobility... reducing soreness around joints... lessening inflammation... and increasing grip strength.**

Let me tell you about one study that caught my eye. It involved 60 adults with severe, active joint pain. Subjects were given either Vital3® or

an inactive placebo mixed with their juice prior to breakfast each morning.

After four and 12 weeks, those who took Vital3® showed **significant improvements on ALL AREAS TESTED:**

- ✓ Joint swelling — DOWN
- ✓ Tenderness and pain — DOWN
- ✓ Overall achiness — DOWN
- ✓ Mobility and ease of walking — IMPROVED

**Why are these studies so noteworthy?**

- 1.** There were **10 studies** — not just one or two. So results were confirmed and re-confirmed many times over.
- 2.** The trials measuring effectiveness were **double-blind, placebo-controlled** — some subjects took placebo sugar pills, some took Vital3®, and neither subjects nor researchers knew who took what. So the results were 100% unbiased.
- 3.** They were all tested on humans, not lab animals. So you know Vital3® works on real people like yourself!

## SCANDAL UNCOVERED!

**F**or years, the supplement industry has been hiding the truth from you: glucosamine alone doesn't work worth a darn.

In the last few years, several large, reputable, independent studies have revealed that by themselves glucosamine and chondroitin are a waste of your time and money.

And get this: during this relatively short time (especially considering these people had severe joint pain) — **four of the people taking Vital3<sup>®</sup> saw their symptoms completely disappear!**

No more tender joints!  
No more swollen knees or elbows!  
No morning stiffness!  
No afternoon fatigue!  
Normal inflammation levels!  
*No signs of joint problems at all when*

In 2006, the National Institutes of Health funded a study involving 1,583 patients with knee osteoarthritis pain. They found glucosamine and chondroitin, alone or together, do not relieve joint pain.

In 2010, Swiss researchers examined 3,803 knee and back pain patients, and concluded the same thing.

The supplement industry knows about these and other embarrassing studies, but really hopes you don't find out. Because glucosamine is big business,

producing about \$2 billion a year in sales.

As a doctor, I urge you to start with pain treatments that are backed by solid science. That's why I like **Vital 3<sup>®</sup>**: 10 clinical human trials...14 worldwide patents...and mountains of real-world evidence showing it really does relieve pain – not just a promise, but a guarantee!

Save glucosamine and chondroitin to try alongside your **Vital 3<sup>®</sup>** – you may see even more improvement!

### *examined by a physician!*

As a doctor, I find that absolutely remarkable! These were all people who had entered the study just weeks before with active joint ailments!

Plus, during the 12 weeks, four subjects who had been taking the placebo dropped out, complaining that their joint pain was getting worse. *NONE of the Vital 3<sup>®</sup> subjects dropped out.*

In fact, at the end of the trial, many of the subjects insisted on being able to keep taking Vital3<sup>®</sup> after the study was over. They were desperate to know where they could get their own supply.

**As convincing as all these studies are, most telling are the stories of actual Vital3<sup>®</sup> customers. Here's what they have to say...**

# Stunned doctor cancels patient's knee surgery — not needed after Vital3®!

By age 76, Margret T.'s joint stiffness had gotten so bad that she went and had surgery on her right knee. The operation for her left knee was scheduled for a couple of years later.

In the meantime, however, Margaret found out about Vital3® and decided to give it a try. It worked — right away! **“I was amazed how quickly the stiffness and discomfort on my right knee has disappeared,”** she said.

She kept on Vital3® for 18 months. And when time came for her second knee surgery, her physician was stunned: she no longer needed the operation!

“He was very surprised and asked me what medication I was on. I showed him your product — he smiled and requested I keep on with your product. Many thanks for your wonderful product.”

## After 21 years of disability, retired police officer reports a “miracle.”

For 21 long years, Don experienced so much agony and stiffness, he thought he'd never know what it would be like to be pain-free again.

A former police officer, Don was forced to retire early and go on disability when his pain began interfering with his job. He sought help everywhere he could, trying, as he puts it, “every product worldwide.” Nothing worked. Instead, the pain and stiffness just kept getting worse.

Finally, Don had both knees operated on. Later, he also had surgery on his ankles and shoulder.

Then Vital3® came into his life, and everything changed. He wrote us, with obvious excitement, **“I finished my third bottle of Vital3®. I'm walking over three miles a day, and swimming and moving freely without pain. I've stopped taking pain relievers. This product is a miracle... My friends are now ordering this product too! Thank you Bronson Laboratories!”**

What's amazing to me is that that Vital3® appears to work for even the most severe cases. Read on to see how people who could barely get out of bed in the morning are now moving freely, playing sports and living life with newfound joy — all from taking 3 drops of Vital3® each morning.

We've received stacks and stacks of letters from people all over the world who rave about how Vital3® has *erased their pain and changed their lives.*

**“What else can I say but WOW!  
and THANK YOU!”**

—B.L., South Australia, Australia

### Feeling over 20 years younger

“I'm a farmer... I am 63 and have arthritis in my right hip and my lower spine.

By day 30 [of taking Vital3®], I was already feeling better. Now, I get out of bed feeling like a 40 year old. When I do heavy work, a half an hour's rest and I'm ready to work again! What else can I say but **WOW! And THANK YOU!**”

— G.W., New South Wales, Australia

### No more knee brace

“These are the best drops I have experienced. I tried to go without but it was so painful, I went back to wearing my knee brace. But with a week's use, I'm back to playing my tennis without knee brace and without pain. It's wonderful. I am now ordering for my friends so they can see what it's doing for me. **Unbelievable!**”

# Dancing her way into age 78!

“During the last two or three years a stiffness has slowly snuck up on me. This difficulty was becoming progressively worse and more difficult to hide from others. I ordered a supply of Vital3® and after just one week, I could actually feel the difference. My limbs and entire body was more flexible and even felt lighter to move. I will be 78 in January and will be out dancing to celebrate my birthday!!”

— C.T., Georgia, USA

## Tending a garden at 90

“I am 90 years of age and could hardly get up from my chair, or even out of bed until I got Vital3® Joint Pain Solution. I till my own garden and raise 70 odd tomato plants. I could not keep up my lawn mowing and gardening if I did not have the use of Vital3®. Thank you.”

— E.M., Alberta, Canada

## Amazing at 89!

“Enclosed is my third order, which I think speaks for itself. Prior to taking Vital3® I was in much pain from arthritis in the spine. This is lessening all the time. I am 89 years old and my doctor says I’m ‘amazing’ for my age.”

— B.W., South Australia, Australia

## No more pain pills!

“I have been taking glucosamine plus chondroitin for 13 years for my knees. I noticed some improvement after taking Vital3®. I noticed a better improvement in my hips which were bad. I am 72 years old and have worked hard as a concrete finisher all my life. I have not been taking any pain killers since I’ve been on Vital3® and I’m able to sleep better at night!”

— L.L., Queensland, Australia
